PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Prepared new credit applications for the sales team, assessing client creditworthiness using internal rating models and presenting findings to the Desk Credit Committee.
- Managed annual credit reviews for corporate clients, recommending limit changes based on financial and non-financial metrics, and discussing key risks with Credit Committee.
- Monitored daily FX credit exposures, liaising with Credit and Group Credit teams, and resolving limit breaches with dealers.
- Ran stress testing scenarios on current and proposed client exposures to support ongoing credit analysis and risk management initiatives.
- Developed month-end and quarterly credit activity and exposure reports, ensuring alignment with Risk Appetite and Senior Management requirements.
- Served as the primary day-to-day liaison between the Treasury Products & Distribution (TPD) and Credit Teams, ensuring proactive communication and alignment on credit matters.
- Containerized the feature-pipeline services with Docker and deployed them to a Kubernetes cluster (EKS), wiring up Helm chart configuration and basic resource limits for predictable rollout.

SKILLS

Financial Analysis – Credit Risk, Financial Statements, Credit Judgment, Derivatives, FX, Interest Rate, Futures, Options, Swaps, Counterparty Analysis, Financial Institutions, Credit Rating Agencies

Risk Management – Credit Applications, Trading Limits, Annual Reviews, Exposure Monitoring, Stress Testing, Reporting, Risk Appetite, Regulatory Compliance

Tools & Technologies – SQL, PostgreSQL, Python, Java, Spring Boot, AWS, Docker, Kubernetes, Jenkins, Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Data Analysis & Reporting – Data Interpretation, Executive Summaries, Portfolio Reporting, Dashboard Accuracy, Business Analysis, Data Validation

Operations & Support – Production Support, Incident Response, SLA Management, Automation Scripting, Change Management, UAT Coordination

PROJECTS

Client Credit Risk Assessment Framework (HCL Technologies)

- Developed a Python-based framework to ingest and analyze client financial statements and market data, producing standardized credit assessment reports.
- Implemented automated data validation checks for key financial ratios and non-financial metrics, reducing manual data entry errors by approximately 18%.
- Designed a reporting module to generate executive summaries highlighting credit strengths, weaknesses, and risk mitigation strategies for senior review.

Treasury Operations Dashboard Enhancement (HCL Technologies)

- Enhanced an existing payments operations dashboard using Java Spring Boot to incorporate real-time transaction monitoring and alerting for failed payment messages.
- Integrated with Splunk for log aggregation and analysis, enabling faster root cause identification for operational incidents impacting transaction flows.
- Refactored SQL queries in PostgreSQL for transaction reconciliation workflows, improving data retrieval performance for the operations team by 15%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
