PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for core business logic, focusing on RESTful API development and inter-service communication.
- Developed and maintained data pipelines using **Python** and **pandas** for ETL processes, transforming and loading data from disparate sources into a central data warehouse.
- Managed production support for enterprise applications on **AWS**, including monitoring with **Splunk** and **Dynatrace**, and responding to P1/P2 incidents.
- Containerised applications using **Docker** and managed deployments within a **Kubernetes** cluster, ensuring efficient resource utilization and scalable rollouts.
- Automated routine operational tasks and reporting through **Python** scripting, reducing manual effort by approximately 15% across the support team.
- Collaborated with cross-functional teams in an **Agile/Scrum** environment, participating in sprint planning, daily stand-ups, and code reviews to ensure timely delivery of features.
- Managed system configuration updates and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring smooth change-control management and post-go-live support.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Docker, Kubernetes, Jenkins, Git

Monitoring & Observability – Splunk, Dynatrace

Tools & Methodologies – Jira, Confluence, Agile, Scrum

PROJECTS

Enterprise Java Application Modernization

- Refactored monolithic Java application components into scalable **Spring Boot** microservices, improving system modularity and maintainability.
- Implemented **JPA** for data persistence across multiple microservices, ensuring data integrity and efficient database interactions with **PostgreSQL**.
- Developed comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over 85% code coverage for critical service modules.

Automated Data Ingestion Pipeline

- Built a **Python**-based ETL pipeline to ingest and transform data from various enterprise systems, including ERP modules and operational platforms.
- Automated the generation of scheduled reports using **pandas** and delivered them via email, saving an estimated 8 hours of manual work per week.
- Integrated the pipeline with **AWS S3** for data staging and processing, ensuring reliable data flow for downstream analytics and reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
