PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **custom WordPress themes and plugins**, focusing on enhancing user experience and ensuring robust security for a large, distributed user base.
- Built and improved **interactive front-end features** using **React** and modern JavaScript (ES6), contributing to a high-traffic product used by hundreds of thousands of users.
- Collaborated with a globally distributed engineering team using **Git-based workflows** and agile communication tools to deliver iterative product enhancements.
- Contributed to architectural decisions for WordPress products, proposing elegant solutions to complex technical challenges and ensuring code quality through adherence to **PHP**, **JavaScript**, and WordPress development standards.
- Participated actively in improving product features and overall user experience by gathering feedback and implementing enhancements for widely used WordPress products.
- Containerized several WordPress plugins using **Docker** for consistent deployment across development and production environments, integrating with a CI/CD pipeline.
- Managed and resolved production issues for enterprise Java/.NET applications, performing root cause analysis using **Splunk** and **Dynatrace**, and ensuring SLA adherence for P1/P2 incidents.

SKILLS

Frontend – React, JavaScript (ES6), HTML, CSS/SASS, jQuery

Backend – WordPress, PHP, MySQL

DevOps & CI/CD – Git, Docker, Jenkins

Cloud & Monitoring – AWS (EC2, S3, Lambda, CloudWatch), Splunk, Dynatrace

Databases – PostgreSQL, MySQL, Oracle

Languages – Java, Python, SQL

Methodologies – Agile, Scrum

PROJECTS

High-Traffic WordPress Theme & Plugin Suite

- Engineered a suite of custom **WordPress themes and plugins** designed for high-traffic websites, focusing on performance optimization and security best practices.
- Implemented **React** components within the WordPress theme for dynamic user interfaces, enhancing interactivity and user engagement for thousands of agency users.
- Managed code reviews and collaborated with a remote team via **Git**, ensuring adherence to WordPress coding standards and deploying updates through a Jenkins-driven CI/CD pipeline.

Enterprise Application Production Support Enhancement

- Automated critical production support tasks for enterprise Java/.NET applications using **Python** scripting, reducing manual intervention time by approximately **30%**.
- Developed operational dashboards using **Splunk** to monitor application health and transaction flows, enabling proactive identification of potential issues and faster incident response.
- Supported and troubleshooted interconnected enterprise systems, including ERP modules, through REST API integrations and direct database interactions with **PostgreSQL** and **Oracle**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
