PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for feature development, establishing robust **REST APIs** and managing inter-service communication via message queues.
- Engineered and maintained **Hibernate** entities and persistence layers for enterprise applications, ensuring data integrity and efficient querying across relational databases.
- Developed asynchronous processing logic using **Java EE** patterns and **JUnit** for comprehensive unit testing, enhancing code reliability and maintainability.
- Contributed to sprint planning and technical estimations for new features, actively participating in **Agile ceremonies** and refining backlog items.
- Collaborated with senior engineers on code reviews, ensuring adherence to coding standards and promoting best practices in a **full-stack** development environment.
- Containerized multiple **Java** applications using **Docker**, defining build configurations and deployment strategies for efficient scaling on **AWS EC2** instances.
- Participated in incident response for production systems, shadowing initial triage and contributing to root cause analysis for P1/P2 issues, reducing MTTR by approximately 15% over six months.

SKILLS

Languages – Java, Python, SQL, R, TypeScript

Frameworks/Libraries – Spring Boot, Hibernate, Java EE, Spring Security, Spring Cloud, JUnit, Mockito, pandas, NumPy, scikit-learn, FastAPI, Flask, React, Angular

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Terraform

Databases – PostgreSQL, MySQL, Oracle

Observability – Splunk, Dynatrace, CloudWatch

BI/Analytics – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Modernized a legacy Java application by re-architecting core modules into **Spring Boot microservices**, improving system modularity and enabling independent deployments.
- Implemented data persistence using **Hibernate** and **PostgreSQL**, optimizing critical query performance and reducing data retrieval times by an average of 30%.
- Developed comprehensive **JUnit** test suites and integrated them into the **Jenkins CI/CD** pipeline, increasing code coverage by 45% and reducing regression defects.

Customer Onboarding Automation (HCL Technologies)

- Developed Python scripts to automate the initial setup and configuration of new client environments, reducing manual onboarding time by approximately 2 days per client.
- Built a reporting module using **pandas** and **SQL** to track onboarding progress and identify bottlenecks, providing actionable insights to the operations team.
- Integrated with internal ticketing systems via **REST APIs** to streamline the workflow between development and customer support teams, improving communication efficiency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
