PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assessed operational, administrative, and commercial business functions for adherence to company processes and risk mitigation, establishing cross-functional relationships with senior stakeholders.
- Supported legal and compliance activities including legislation impact reviews, data protection oversight, and investigation of insurance incidents, working with external consultants to mitigate business exposure.
- Managed controlling, analysis, and planning of core business financials and KPIs, contributing to strategic decision-making through business reporting and insights.
- Processed company finances, including cash and treasury management, bank reconciliations, and timely payments to creditors, preparing financial statements for monthly, quarterly, and annual reporting.
- Coordinated change-control management for system configuration updates and UAT, providing post-go-live support across interconnected enterprise systems.
- Developed Python scripts for automating data extraction and reporting tasks, processing approximately 500MB of financial data daily for internal analytics.
- Containerized and deployed Java Spring Boot applications to AWS EC2 instances using Docker and Jenkins CI/CD pipelines for streamlined production releases.

SKILLS

Business Functions – Internal Audit, Legal & Compliance, Management Accounting, Finance & Accounting, Data Protection, Anti-Fraud, Contract Services, Financial Reporting, KPI Analysis, Cost Management, Treasury Management

Technical Skills – Java, Spring Boot, Python, SQL, PostgreSQL, MySQL, Oracle, Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Linux, Shell Scripting

Data & Analytics – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Data Modelling, Data Warehousing, Business Intelligence

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), CI/CD, Git Flow, Code Reviews

Methodologies – Agile, Scrum, Change Management, Incident Response, SLA Management

PROJECTS

Financial Operations Dashboard Enhancement

- Developed and deployed new Java Spring Boot microservices to integrate with existing enterprise systems, improving data flow efficiency for transaction monitoring.
- Implemented robust REST APIs for cross-system data exchange, facilitating seamless integration between the payments dashboard and core ERP modules.
- Wrote SQL queries across PostgreSQL and Oracle databases for data validation and schema updates, supporting system configuration changes within strict change-control protocols.

Automated Reporting and Data Pipeline

- Engineered Python scripts to automate the generation of daily operational reports, consolidating data from multiple PostgreSQL tables and reducing manual effort by approximately 8 hours per week.
- Built data pipelines using pandas to extract, transform, and load financial transaction data, preparing datasets for analysis and compliance review.
- Designed and implemented a scheduling mechanism using cron jobs on Linux for automated execution of data processing scripts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
