PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the full device lifecycle for new hires, including building, configuring, and deploying **high-performance workstations and laptops**.
- Administered **Active Directory** users, groups, and OU structures, designing and deploying **Group Policy Objects (GPOs)** to enforce security baselines and automate software deployment.
- Authored and maintained **Python scripts** to automate repetitive IT operations tasks, such as bulk user updates and system health checks, improving team efficiency by approximately **15%**.
- Operated and enhanced local networks including **VLANs, switching, Wi-Fi, and VPN**, while managing firewall and remote access policies using **SonicWall**.
- Delivered scheduled patching and firmware updates for servers and network equipment, alongside maintaining and testing **backup/restore procedures**.
- Integrated with security functions for logging enablement, including **syslog forwarding and time synchronization**, and contributed to endpoint hardening initiatives.
- Documented real-time asset lists, network diagrams, and change records, ensuring accurate infrastructure visibility for a growing team.

SKILLS

IT Operations – Device Lifecycle Management, Onboarding/Offboarding, Hardware Upgrades, Workspace Setup, Asset Management

Network Administration – TCP/IP, Switching, VLANs, Wi-Fi, VPN, DHCP, DNS, SonicWall Firewalls

Directory Services – Active Directory, Group Policy Objects (GPOs), User/Group Management, OU Structures

Scripting & Automation – PowerShell, Python, Bash, System Administration Automation, Log Gathering, System Health Checks

Infrastructure Management – Server Patching, Firmware Updates, Backup and Restore Procedures, Syslog Forwarding, Time Synchronization

Security – Endpoint Hardening, Firewall Policies, Remote Access Policies, Change Control Processes

PROJECTS

Automated IT Onboarding and Asset Management System

- Developed a **Python-based automation suite** to streamline the IT onboarding process for new employees, reducing manual setup time by an estimated **40%**.
- Integrated the automation suite with **Active Directory** to manage user accounts and group memberships, and with a system for tracking hardware assets.
- Authored comprehensive documentation and runbooks for the new onboarding process, facilitating rapid adoption by the IT support team.

Network Infrastructure Hardening and Documentation

- Executed a security review and hardening initiative for the company's core network infrastructure, focusing on **VLAN segmentation** and firewall rule optimization.
- Created detailed network diagrams and updated asset inventory using **PowerShell scripting** to collect real-time configuration data from network devices.
- Implemented improved **syslog forwarding** to a central logging server, enhancing security monitoring capabilities and simplifying log analysis for incident response.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
