PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed user provisioning and deprovisioning across **Microsoft 365** and **Active Directory** for over 200 employees, ensuring timely access and security compliance.
- Administered and troubleshoot **Windows Server** environments, resolving an average of 15 tickets per week related to OS issues and user access.
- Configured and maintained **Intune** policies for corporate device management, successfully enrolling and managing over 100 laptops and mobile devices.
- Provided first-line technical support for internal IT infrastructure, diagnosing and resolving hardware, software, and network issues for end-users.
- Implemented core **IT security** processes, including user account audits and basic network security monitoring, in collaboration with senior engineers.
- Supported the deployment and configuration of new hardware and software across the organization, coordinating with vendors and internal teams.
- Automated routine system administration tasks using **shell scripting** and **Python**, reducing manual effort for log analysis and report generation by approximately 15%.

SKILLS

Microsoft 365 – Exchange Online, SharePoint Online, Teams, OneDrive

Identity & Access Management – Active Directory, Entra ID, User Provisioning, Group Policies

Device Management – Intune, MDM, Windows Autopilot, macOS Management

Operating Systems – Windows Server, Windows 10/11, Linux (Basic)

Infrastructure & Networking – TCP/IP, DNS, DHCP, VPN, Core Infrastructure

Scripting & Automation – PowerShell, Shell Scripting, Python (Basic)

PROJECTS

Internal IT Support Automation Suite (HCL Technologies)

- Developed a suite of **Python** scripts to automate common IT support requests, including password resets and software installation checks, reducing average ticket resolution time by 10%.
- Created **shell scripts** to parse system logs from multiple servers, consolidating critical error messages into a daily summary report for the operations team.
- Designed a simple ticketing system interface using **Flask** to allow non-technical users to request common IT services, integrating with existing backend scripts for fulfillment.

User Onboarding & Device Management Framework (HCL Technologies)

- Contributed to the development of a standardized user onboarding process, ensuring all new hires received necessary access and equipment within their first day.
- Assisted in configuring baseline security settings for new employee workstations using **Windows** imaging tools and basic **Active Directory** policy deployment.
- Documented standard operating procedures for common IT tasks, creating a knowledge base that supported a 5% reduction in repeat support inquiries.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
