PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained production-ready Java Spring Boot microservices, focusing on the design and implementation of robust REST APIs for internal and external integrations.
- Engineered and optimized SQL queries across PostgreSQL and Oracle databases for data validation and reporting, managing schema evolution for enterprise business systems.
- Automated routine operational tasks and data processing workflows using Python scripting, improving efficiency for scheduled reporting and data extraction procedures.
- Managed the lifecycle of production incidents for enterprise applications, performing root cause analysis and implementing timely resolutions to meet strict SLAs.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements, support user acceptance testing, and triage post-implementation issues for financial-services platforms.
- Contributed to CI/CD pipelines using Jenkins and Git for automated builds, testing, and deployments, ensuring code quality through peer reviews and adherence to Agile methodologies.
- Containerized Java applications using Docker for consistent deployment environments and managed cloud resources on AWS EC2 and S3.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, Linux

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Developed new Java Spring Boot modules for a payments operations dashboard to enhance transaction monitoring capabilities, processing approximately 1,500 transaction records per hour.
- Refactored Python ETL scripts to improve data ingestion performance for reconciliation workflows, reducing processing time by 18% for daily batch loads.
- Implemented comprehensive logging and alerting mechanisms using Splunk to provide real-time operational insights into payment message flows.

ERP Integration & Automation Service (HCL Technologies)

- Built REST APIs in Java to facilitate data exchange between disparate enterprise business systems, enabling seamless cross-system integrations.
- Automated data validation checks using SQL scripts across PostgreSQL and MySQL, reducing manual effort by 40% for system configuration updates.
- Supported change-control management processes for ERP system updates, coordinating UAT and providing post-go-live technical support.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
