PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **expert IT systems and business process support** to retailers, addressing a range of IT-related issues for **ePOS systems, PCs, and printers**.
- Managed **daily IT ticket queues**, performing initial triage of inbound incidents and gathering essential details to ensure efficient resolution for both internal and external customers.
- Optimized **operational processes and procedures** to maximize efficiency and maintain quality standards, directly contributing to improved customer experiences.
- Collaborated with other internal functions and third-party providers to ensure timely resolution of incidents, aligning with **retailer satisfaction** and service level objectives.
- Identified and researched technical problems, escalating and resolving them effectively to maintain **essential IT operations** and system reliability.
- Compiled detailed **incident reports** and tracked issues, providing clear documentation for ongoing analysis and process improvement initiatives.
- Maintained and updated **knowledge articles** with documented fixes and solutions, facilitating faster resolution for recurring technical challenges across the support team.

SKILLS

IT Support – IT systems support, Business process support, Incident management, Ticket management, Knowledge base maintenance, Root cause analysis

Retail Technology – ePOS systems, PCs, Printers, Network Equipment, Retail applications

Operations – Process optimization, Service improvement, Operational efficiency, Quality standards, Customer experience

Communication & Collaboration – Stakeholder communication, Third-party vendor management, Cross-functional collaboration, Incident reporting

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, AWS CloudWatch, Linux Shell Scripting

PROJECTS

Retail Operations Support Automation (HCL Technologies)

- Automated **daily IT ticket management** processes using Python scripting, reducing manual handling time by approximately **35%** for the support team.
- Developed and maintained **reporting dashboards** in Power BI to visualize key incident metrics, including resolution times and common issue categories, for operational review.
- Created shell scripts for **Linux log analysis** and system health checks, enabling proactive identification of potential issues on enterprise servers.

Customer Onboarding & Documentation Enhancement (HCL Technologies)

- Designed and documented a standardized process for **onboarding new retail partners** to the IT support system, reducing average onboarding time by **15%**.
- Authored comprehensive user guides and **knowledge base articles** for common IT issues related to ePOS and network equipment, improving first-contact resolution rates by **10%**.
- Collaborated with business analysts to gather requirements for enhancing the **payments operations dashboard**, focusing on improved alerting for transaction flow issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026
