PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed **FastAPI** microservices in **Python** for AI product backends, handling real-time data ingestion and processing for a platform used by millions.
- Implemented **TypeScript** features for an AI product's backend, integrating with relational and NoSQL databases to support new AI tooling experiments.
- Designed and implemented **React** components and UI flows for user-facing AI features, collaborating closely with product and design teams to iterate rapidly on user experience.
- Containerized AI product services using **Docker** and deployed to a cloud infrastructure environment, ensuring scalable and reliable production system operation.
- Wrote **Python** scripts to automate data pipeline tasks and generate scheduled reports for AI model performance monitoring, improving data availability for analysis.
- Contributed to the design and implementation of system architecture for new AI products, balancing immediate feature delivery with long-term maintainability and scalability.
- Managed incident response for production systems, performing root cause analysis and implementing fixes to maintain application stability and performance.

SKILLS

Languages – Python, TypeScript, Java, SQL, R

Frameworks/Libraries – FastAPI, Spring Boot, Flask, React, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle, NoSQL

Cloud/Infra – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

DevOps/Tools – Git, Jenkins, Jira, Confluence, Splunk, Dynatrace

BI/Analytics – Power BI, Tableau, DAX, Power Query

PROJECTS

AI Product Backend Services

- Developed a suite of **Python** microservices using **FastAPI** to serve AI model inference endpoints and manage feature data for a new enterprise AI product.
- Integrated these services with **PostgreSQL** for persistent storage and implemented robust error handling and logging mechanisms for production readiness.
- Containerized the services with **Docker**, enabling consistent deployments across development, staging, and production cloud environments.

Customer-Facing AI Feature Integration

- Built **TypeScript**-based API integrations and data processing logic to expose AI model predictions to external customer applications.
- Collaborated with a technical account manager to gather requirements and deliver a pilot integration for a key enterprise customer, demonstrating core AI product capabilities.
- Developed sample code and documentation to facilitate customer adoption and integration, reducing onboarding time by approximately 30%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
