PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production support for enterprise SaaS applications on **AWS**, focusing on **SLA management** and P1/P2 incident response using **Splunk** and **Dynatrace**.
- Developed **Python** scripts to automate data ingestion pipelines and scheduled reporting, processing approximately **50 GB** of data daily.
- Designed and implemented **Java Spring Boot** REST APIs for cross-service communication, enhancing system integration capabilities.
- Defined and drove automation of cloud operations and deployment processes using a variety of toolsets to improve efficiency.
- Participated in continuous delivery, configuration changes, and performance monitoring to ensure high availability of systems.
- Led incident management processes, including triaging and resolution of critical system issues within defined timeframes.
- Containerized applications using **Docker** and deployed them to a **Kubernetes** cluster, managing configurations and ensuring smooth rollouts.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Python, Java, SQL, Linux Shell Scripting

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

CI/CD & DevOps – Jenkins, Git, Docker, Kubernetes, Terraform

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Methodologies – Agile, Scrum

PROJECTS

Cloud Operations Automation Suite

- Developed a suite of **Python** automation scripts for cloud environment provisioning and configuration management on **AWS**.
- Integrated **Jenkins** pipelines to automate the build, test, and deployment of applications to a **Kubernetes** cluster, reducing manual deployment time by **40%**.
- Implemented centralized logging and monitoring using **Splunk** and **CloudWatch**, enabling faster issue detection and root cause analysis for production systems.

Enterprise Application Performance Monitoring

- Enhanced monitoring capabilities for enterprise applications by configuring **Dynatrace** agents and setting up custom alerts for key performance indicators.
- Analyzed application logs and performance metrics in **Splunk** to identify bottlenecks and areas for optimization, contributing to a **15%** improvement in response times for critical transactions.
- Created shell scripts for automated log collection and analysis on **Linux** servers to support incident response and performance tuning efforts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
