PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided production support for enterprise applications, managing SLAs and responding to P1/P2 incidents across **Splunk** and **Dynatrace** monitoring platforms.
- Developed **Python** scripts to automate data extraction and transformation tasks for daily operational reporting, processing approximately 50 GB of data.
- Wrote and optimized **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation and ad-hoc reporting, supporting a team of 8 analysts.
- Implemented new features and resolved bugs in existing **Java Spring Boot** microservices, including the development of new **REST APIs** for internal service communication.
- Managed and deployed containerized applications using **Docker** on **AWS EC2** instances, integrated with **Jenkins** for CI/CD pipeline automation.
- Contributed to the development of a **payments operations dashboard**, focusing on monitoring transaction flows and providing operational alerting for failed message processing.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements, support user acceptance testing, and triage post-implementation issues for enterprise systems.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Spring, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

BI & Analytics – Power BI, Tableau, DAX, Power Query, RStudio

Methodologies – Agile, Scrum

PROJECTS

Financial Services Transaction Monitoring System (HCL Technologies)

- Developed automated **Python** scripts for ETL processes to ingest and aggregate transaction data from multiple sources into a central data store.
- Built and maintained **Java Spring Boot** RESTful services to expose transaction data for real-time monitoring on an operational dashboard.
- Configured **Splunk** alerts to notify operations teams of anomalies and potential failures in transaction processing workflows, reducing manual checks by approximately 40%.

ERP System Integration and Reporting Suite (HCL Technologies)

- Designed and implemented **SQL** procedures and triggers in **PostgreSQL** to facilitate data synchronization between the ERP system and a downstream reporting database.
- Created interactive **Power BI** dashboards visualizing key ERP metrics, including order fulfillment rates and inventory levels, for business stakeholders.
- Supported change management processes for ERP configuration updates, coordinating UAT and providing post-go-live support across integrated systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
