PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** applications, implementing REST APIs for inter-service communication and integrating with enterprise systems.
- Engineered **Python data processing layers** and ETL scripts to automate data ingestion, transformation, and reporting tasks, processing approximately **1.5 TB** of data weekly.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 escalations within defined SLA targets and performing root cause analysis.
- Collaborated with tech leads and team members to define technical designs for new application features, ensuring adherence to modern coding practices and architectural principles.
- Developed unit tests and integration tests for **Java** and **Python** components, achieving over **85% code coverage** and debugging issues identified by QA and product support teams.
- Partnered with product owners to understand business needs and translate them into technical requirements and feature stories for iterative development cycles.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing configurations and ensuring smooth rollouts via **Jenkins** pipelines.

SKILLS

Languages – Java, Python, SQL, JavaScript

Frameworks/Libraries – Spring Boot, Spring Cloud, Hibernate, JPA, Node.js, React, Angular, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle, Microsoft SQL Server

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Tableau, Power BI, Power Query, DAX

Methodologies – Agile, Scrum

PROJECTS

Enterprise Java Application Modernization

- Re-architected a monolithic Java application into a microservices-based system using **Spring Boot** and **Spring Cloud**, improving system modularity and maintainability.
- Implemented a robust persistence layer using **Hibernate** and **JPA**, optimizing database interactions and ensuring data integrity across the application.
- Developed comprehensive unit and integration tests with **JUnit** and **Mockito**, increasing test coverage by **40%** and reducing post-deployment defects.

Automated Financial Transaction Reconciliation Service

- Developed a **Python**-based service that automated the reconciliation of financial transaction data from multiple sources, reducing manual effort by approximately **30%**.
- Designed and implemented REST APIs using **FastAPI** to expose reconciliation results and status updates, integrating with downstream operational dashboards.
- Managed data pipelines involving extraction, transformation, and loading (ETL) from **PostgreSQL** and flat files into a staging data warehouse.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
