PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered user access, role changes, and Multi-Factor Authentication (MFA) for **~450 accounts** across internal applications and cloud platforms.
- Monitored security alerts from **SIEM tools** and system health dashboards, triaging and escalating operational events to engineering teams.
- Supported incident handling and issue tracking workflows, documenting root causes and contributing to post-incident review reports for **15+ critical incidents**.
- Assisted with vulnerability management by coordinating patching schedules and verifying security hygiene across a fleet of **~200 servers**.
- Maintained operational records and technical documentation for audits and internal reviews, ensuring **compliance with GDPR** and financial services regulations.
- Worked with cloud, engineering, and compliance teams to track remediation items for identified security gaps, ensuring timely closure of **~30 outstanding tickets**.
- Supported third-party ICT oversight activities, including conducting service reviews and tracking operational issue follow-up with **5+ key vendors**.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Linux, Networking

Security Operations – Incident Response, Vulnerability Management, Access Control, MFA, SIEM, SOC

IT Operations – System Monitoring, Cloud Controls, Operational Resilience, Backup/Restore, Audit Support

Scripting & Automation – Python, Bash

Documentation & Compliance – Technical Documentation, Policy Maintenance, Runbooks, GDPR

Tools & Methodologies – Jira, Confluence, Agile, Change Management

PROJECTS

Cloud Infrastructure Security Hardening

- Enhanced security posture for AWS cloud infrastructure by implementing granular IAM policies and configuring security group rules to restrict network access.
- Developed Python scripts to automate the auditing of S3 bucket permissions and EC2 instance configurations, identifying and flagging over **~200 potential misconfigurations**.
- Contributed to the creation of operational runbooks for incident response procedures, detailing steps for triaging security alerts and escalating critical events.

Enterprise IT Access Control System Enhancement

- Administered user access and role changes within an enterprise IT environment, processing an average of **15-20 requests daily** to ensure adherence to least privilege principles.
- Implemented and managed Multi-Factor Authentication (MFA) across critical systems, improving security against unauthorized access for **~300 users**.
- Collaborated with compliance teams to document access control processes and evidence collection, supporting audit requirements for a regulated financial services client.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
