PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for backend services, implementing robust error handling and request validation patterns.
- Engineered data pipelines using **Python** and **pandas** to ingest, transform, and load data from disparate sources, supporting scheduled reporting needs.
- Managed production support for enterprise applications on **AWS** (EC2, S3, Lambda), responding to P1/P2 incidents and ensuring SLA adherence via **Splunk** and **Dynatrace** monitoring.
- Collaborated with cross-functional teams to define and implement new features within an **Agile/Scrum** framework, participating in sprint planning and daily stand-ups.
- Designed and implemented database schema changes and complex SQL queries across **PostgreSQL** and **MySQL** for data validation and reporting enhancements.
- Containerized backend services using **Docker**, facilitating consistent deployment across development and production environments.
- Contributed to CI/CD processes by maintaining **Jenkins** pipelines and performing code reviews within a Git-based branching strategy.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Python, Flask, FastAPI

Databases – SQL, PostgreSQL, MySQL, Oracle, Data Modelling

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Data Analysis & BI – pandas, NumPy, Power BI, Tableau, DAX, R

Methodologies – Agile, Scrum, IT Support, Change Management

Observability – Splunk, Dynatrace

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java components into modular **Spring Boot** microservices, improving system maintainability and reducing deployment times by **~30%**.
- Implemented asynchronous communication patterns using **JMS** for event processing, enhancing system resilience and decoupling services.
- Developed comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over **85%** code coverage for critical modules.

Automated Financial Reporting Pipeline (HCL Technologies)

- Built an automated **Python** pipeline to extract, transform, and load data from multiple operational databases into a central reporting repository.
- Developed **SQL** scripts for data validation and reconciliation, ensuring data integrity for downstream financial reports consumed by business analysts.
- Created **Power BI** dashboards to visualize key operational metrics, enabling stakeholders to monitor transaction processing status more effectively.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
