PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Python** ETL pipelines for data ingestion and transformation, processing approximately **1.5 million records daily** for downstream analytics.
- Designed and implemented **Java Spring Boot** REST APIs to facilitate data exchange between internal microservices, ensuring robust error handling and fault tolerance.
- Managed production support for enterprise applications on **AWS**, responding to P1/P2 incidents and performing root cause analysis using **Splunk** and **Dynatrace**.
- Constructed interactive **Power BI** dashboards and reports, translating complex datasets into actionable business insights for executive stakeholders.
- Wrote and optimized **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation, ad-hoc reporting, and schema modification requests.
- Containerized **Java** applications using **Docker** and deployed them to **AWS EC2** instances via **Jenkins** CI/CD pipelines, reducing deployment time by **30%**.
- Collaborated with cross-functional teams to gather requirements for system integrations and supported User Acceptance Testing for enterprise business systems.

SKILLS

Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, data modelling, data warehousing

Monitoring & Support – Splunk, Dynatrace, P1/P2 incident response, SLA management

Methodologies – Agile, Scrum

PROJECTS

Market Data Analysis Platform Enhancement

- Developed a **Python**-based data processing module to ingest and clean market data feeds from multiple external sources, handling over **500,000 data points per hour**.
- Built a suite of **Power BI** dashboards visualizing key market indicators, trends, and historical performance, enabling quicker analysis for trading strategy formulation.
- Optimized **SQL** queries against a PostgreSQL data warehouse, improving report generation speed for time-sensitive market data analysis by **22%**.

Financial Transaction Reconciliation System

- Engineered a **Java Spring Boot** service to automate the reconciliation of financial transaction data streams, identifying and flagging discrepancies with **98.5% accuracy**.
- Integrated the reconciliation service with existing banking backend systems via REST APIs, ensuring seamless data flow and adherence to operational SLAs.
- Implemented comprehensive unit and integration tests using **JUnit**, achieving over **90% code coverage** for the core reconciliation logic.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
