PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts for automating data ingestion and ETL processes, reducing manual data preparation time by approximately **30%**.
- Developed and maintained **Java Spring Boot** REST APIs for internal services, managing a backlog of features and bug fixes for a core enterprise application.
- Managed production support for enterprise-level applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring adherence to strict SLAs.
- Built and customised **front-end systems** and dashboards for client-specific energy intelligence solutions, integrating data from diverse sources.
- Created custom **reporting systems** and automated alerts for electrical assets, enhancing operational visibility and proactive issue identification.
- Supported clients by responding to system queries and providing solution upgrades for Electrical Power Monitoring Systems (EPMS).
- Containerised backend services using **Docker** and deployed them to **AWS EC2** instances, managing application configurations and basic resource allocation.

SKILLS

Programming Languages – Python, Java, SQL, R, C#

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, FastAPI, Flask

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Power BI, Tableau, Splunk, Dynatrace, Jira, Confluence

Domain Expertise – Electrical Power Monitoring Systems (EPMS), Networked Automation, Data Integration, Energy Management

PROJECTS

HCL Enterprise Application Support & Enhancement

- Provided production support for a suite of Java and .NET enterprise applications, analysing logs in **Splunk** and **Dynatrace** to resolve P1 incidents within SLA targets.
- Developed **Python** automation scripts to streamline recurring data validation tasks and report generation, improving team efficiency by an estimated **20%**.
- Collaborated with cross-functional teams to implement feature enhancements in **Java Spring Boot** services, including developing new REST endpoints and refactoring existing code.

MSc Data Analytics Applied Project: Energy Consumption Dashboard

- Designed and developed an interactive **Power BI** dashboard to visualise energy consumption patterns for a hypothetical industrial client, integrating data from multiple sources using **Power Query**.
- Applied statistical analysis using **R** to identify key drivers of energy usage and presented findings to academic stakeholders, informing potential optimisation strategies.
- Extracted and transformed data using **SQL** and **pandas**, performing data modelling and creating DAX measures to support complex analytical queries within the dashboard environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
