PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the **configuration, implementation, and ongoing support** of Supply Chain IT applications, focusing on **Oracle OPM Modules** for enterprise-wide deployments.
- Coordinated with business departments to gather and implement **enhancement requests**, translating user needs into detailed functional specifications and design documents.
- Resolved **system issues** at the application server level, providing **SME support** and communicating resolutions to management and business process owners.
- Processed **IT Applications change control requests** and worked with Validation and Quality departments to ensure adherence to development lifecycle standards.
- Participated in **IT Applications systems security access** reviews and periodic **audit trail reviews**, ensuring compliance and data integrity.
- Developed **technical documentation**, including converting User Requirement Specifications to Detail Design Specifications and authoring **Configuration Test Plans**.
- Supported IT Applications prior to, during, and post **Regulatory/Partner inspections**, ensuring system readiness and data availability.

SKILLS

ERP/SCM – Oracle OPM Modules, Supply Chain IT Applications, Oracle Applications

Application Support & Maintenance – System Issue Resolution, Functional Support, User Account Administration, Production Support

System Implementation & Configuration – Configuration, Enhancement Requests, System Administration, Development Life Cycle

Documentation & Testing – Technical Writing, User Requirement Specifications, Detail Design Specification, Configuration Test Plans, Summary Reports

Compliance & Security – Regulatory Inspections, Audit Trail Reviews, Systems Security Access

Project & Stakeholder Management – Stakeholder Coordination, Business Process Owner Collaboration, Project Management

PROJECTS

Oracle OPM Module Enhancement Project

- Led the enhancement initiative for key **Oracle OPM Modules**, gathering requirements from supply chain stakeholders and translating them into actionable design specifications.
- Implemented and tested system enhancements, authoring **Configuration Test Plans** and generating summary reports to validate functionality against business needs.
- Provided post-implementation support and coordinated with IT teams to ensure smooth integration and user adoption of the updated modules.

Supply Chain IT Application Support & Documentation

- Managed daily administrative tasks and provided **end-user support** for critical supply chain IT applications, troubleshooting issues and escalating as needed.
- Developed comprehensive **technical documentation** for application support procedures and system configurations, improving knowledge transfer within the IT team.
- Assisted in preparing systems for **regulatory inspections** by ensuring data integrity, access controls, and audit trail availability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
