PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** microservices for cloud-native applications, focusing on building **RESTful APIs** for inter-service communication.
- Implemented and maintained **CI/CD pipelines** using **Azure DevOps**, enabling automated building, testing, and deployment of microservices to **Azure cloud platforms**.
- Managed and deployed microservices on **Azure Container Apps**, ensuring scalability, resilience, and maintainability of the cloud-native architecture.
- Collaborated with cross-functional teams to understand product requirements and translate them into detailed software designs for new microservice features.
- Troubleshoot and debugged complex issues in distributed microservices environments, performing root cause analysis and implementing effective solutions.
- Created and managed **Docker containers** and **Dockerfiles** to ensure consistent application environments across development and production.
- Gained working knowledge of **Kubernetes fundamentals**, including deployments, services, and configuration management for orchestrating containerized applications.

SKILLS

Languages – Java, Python

Frameworks/Libraries – Spring Boot, RESTful APIs

Cloud Platforms – Azure, Azure Container Apps, AWS

Containerization/Orchestration – Docker, Dockerfiles, Docker Compose, Kubernetes

CI/CD Tools – Azure DevOps, Jenkins

Databases – PostgreSQL, MySQL, Oracle

Development Methodologies – Agile, Scrum

PROJECTS

Cloud-Native Microservices Development (HCL Technologies)

- Developed **Java Spring Boot** microservices for an enterprise client, focusing on implementing robust **RESTful APIs** for seamless data exchange.
- Containerized services using **Docker** and deployed them to an **AWS**-based environment, managing configurations and ensuring application stability.
- Integrated services with existing enterprise systems through database-level data flows across **PostgreSQL** and **Oracle** databases.

Automated Deployment Pipeline for Enterprise Applications (HCL Technologies)

- Engineered **Python** scripts to automate ETL processes for data ingestion and reporting, processing approximately 5,000 records daily.
- Configured and maintained **Jenkins** pipelines for Continuous Integration and Continuous Deployment, reducing manual deployment effort by 40%.
- Managed application configurations and performed log analysis on **Linux** servers using shell scripting and cron jobs for scheduled tasks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
