PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot microservices** for backend systems, focusing on RESTful API development and asynchronous communication patterns.
- Developed and maintained **Hibernate** ORM mappings and optimized **SQL queries** across PostgreSQL and Oracle databases to ensure data integrity and efficient retrieval.
- Authored comprehensive **JUnit and Mockito tests** for Java components, achieving over 90% code coverage and ensuring the reliability of new feature deployments.
- Managed and scaled **AWS EC2 instances** and **S3 buckets**, configuring security groups and IAM roles for production environments, supporting core application infrastructure.
- Automated routine operational tasks and data extraction processes using **Python scripting**, reducing manual effort by approximately 15 hours per week for the support team.
- Containerized microservices using **Docker** and managed deployments through **Jenkins CI/CD pipelines**, streamlining the build and release cycle for faster iteration.
- Provided **production support** for enterprise applications, responding to P1/P2 incidents, analyzing logs with **Splunk**, and performing root cause analysis to maintain service level agreements.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Backend Development – Java, Spring Boot, REST APIs, Hibernate, JPA, Microservices

Databases – PostgreSQL, MySQL, Oracle, SQL

Scripting & Automation – Python, Shell Scripting

DevOps & CI/CD – Docker, Jenkins, Git, Linux

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

PROJECTS

Distributed Java Microservices for Enterprise Systems

- Developed a suite of **Java Spring Boot microservices** to manage core business logic and provide **RESTful APIs** for internal consumption.
- Implemented data persistence using **Hibernate** and **PostgreSQL**, ensuring transactional integrity across multiple service interactions.
- Containerized services with **Docker** and orchestrated deployments to an **AWS EC2** environment, integrating with **Jenkins** for automated builds and releases.

Python-based ETL and Data Processing Automation

- Engineered **Python scripts** to automate the extraction, transformation, and loading of data from disparate sources into a central repository.
- Applied **pandas** and **NumPy** for data manipulation and analysis, processing approximately 50,000 records daily for reporting purposes.
- Scheduled and monitored data pipelines using cron jobs on **Linux** servers, ensuring timely delivery of processed data for business intelligence.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
