PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained functional test plans and strategies for legislative workflow management tools, ensuring traceability from user stories to test cases for client releases.
- Participated in the planning and execution of regression test coverage for each product release, collaborating with quality leads to identify key areas for re-testing.
- Worked with internal project teams to identify and resolve technical issues during the software development lifecycle, contributing to a **15% reduction** in critical bug reports before UAT.
- Prepared and presented test results and reports to management, providing clear insights into testing progress and product quality for ongoing releases.
- Gained exposure to **SQL based RDBMS** (Postgres, MySQL) through data validation and ad-hoc query tasks for application support and testing.
- Contributed to the analysis of lessons learned from release retrospectives, implementing process improvements across multiple client implementations to enhance quality.
- Containerized application components using **Docker** and deployed them to development environments on **AWS EC2**, improving consistency in testing setups.

SKILLS

Testing Tools – Selenium, Cypress, Xray, Jira

Databases – PostgreSQL, MySQL, SQL

Programming Languages – Python, Java

Development Practices – SDLC, Agile, Regression Testing, Test Planning

Cloud & DevOps – AWS, Docker, CI/CD

Automation – RPA Libraries, Scripting

PROJECTS

Legislative Content Management System Enhancements

- Developed automated test scripts using **Selenium** to validate core functionalities of a legislative content management system, covering over **150 test scenarios**.
- Collaborated with business analysts to translate complex regulatory requirements into detailed test cases, ensuring comprehensive coverage for new feature releases.
- Assisted in preparing test result summaries and defect reports for stakeholder review, contributing to a smoother UAT process for enterprise clients.

Automated Workflow Testing Framework

- Designed and implemented a Python-based framework for automating document workflow processes, integrating with **PostgreSQL** for data persistence.
- Wrote Python scripts to simulate user interactions and data transformations within the workflow, achieving a **90% pass rate** for critical automated checks.
- Documented the testing framework and procedures, enabling faster onboarding for new QA team members and facilitating knowledge sharing.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
