PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for cross-service communication and data exchange, handling approximately **1,500 requests per minute**.
- Engineered **JPA** entities and managed persistence layers using **Hibernate**, ensuring data integrity and efficient database interactions for core financial transaction processing.
- Authored **JUnit** and **Mockito** tests to achieve over **85% code coverage** for critical Java modules, enhancing application stability and reducing regression defects.
- Collaborated with a **4-person team** to design and implement **.NET Core** backend services, contributing to the development of a new customer portal.
- Participated in **code reviews** for a new **.NET MVC** application, providing feedback on design patterns and adherence to coding standards.
- Integrated **PostgreSQL** databases into existing **.NET Framework** applications, performing schema migrations and optimizing query performance for reporting modules.
- Containerized backend services using **Docker** and managed deployments to an **AWS EC2** environment, simplifying the release process and improving environment consistency.

SKILLS

Backend Development – Java, Spring Boot, .NET Core, .NET Framework, REST APIs, Microservices, JPA, Hibernate, JUnit, Mockito

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Scripting & Automation – Python

Observability & Support – Splunk, Dynatrace

Frontend Technologies – React, Angular

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, scikit-learn

PROJECTS

Enterprise Java Application Modernization

- Refactored legacy Java modules to a modern **Spring Boot** architecture, improving overall system performance by an estimated **20%**.
- Implemented **JPA** and **Hibernate** for data access, streamlining database operations and ensuring data consistency across a distributed system.
- Developed **RESTful APIs** to expose core business logic, enabling integration with downstream client applications and enhancing system interoperability.

Customer Order Management System

- Designed and built **.NET Core** backend services to manage customer orders, product catalogs, and inventory levels.
- Integrated with a **PostgreSQL** database to store and retrieve order information, ensuring reliable data persistence and query efficiency.
- Developed a **React** frontend for order entry and status tracking, providing a user-friendly interface for internal sales teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
