PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Served as an operational contact for **multiple PE clients**, addressing investor queries and ensuring timely delivery of client reporting.
- Prepared and reviewed **capital call and distribution notices**, alongside capital account statements, meticulously analyzing figures for accuracy.
- Processed distribution payments to investors and verified the source of incoming funds, adhering strictly to department procedures and service standards.
- Collaborated closely with the **accounting team** to support general day-to-day operations, ensuring seamless integration between investor services and fund accounting.
- Participated in **audit preparation** when requested, gathering necessary documentation and providing support to internal and external auditors.
- Generated ideas and provided input for process improvements within the Investor Services team, focusing on enhancing efficiency and client satisfaction.
- Maintained positive working relationships with external clients and internal relationship managers, acting as a key point of contact for operational matters.

SKILLS

Investor Services – Capital Call Notices, Distribution Notices, Investor Register, Capital Account Statements, Fund Operations, Fund Administration

Client Interaction – Client Reporting, Investor Queries, Stakeholder Management, Relationship Management

Operations & Compliance – Audit Preparation, Regulatory Compliance, Department Procedures, Service Standards, Deadline Management

Process Improvement – Idea Generation, Process Analysis, Efficiency Enhancement

Core Technologies – Excel, Financial Reporting Tools, Microsoft Office Suite

PROJECTS

Investor Onboarding and Statement Generation System

- Developed a Python-based script to automate the creation of new investor profiles and populate the investor register, reducing manual entry time by approximately 40%.
- Engineered a data processing pipeline using pandas to extract and aggregate transaction data for generating accurate capital account statements, ensuring adherence to reporting formats.
- Integrated the system with internal reporting tools to facilitate timely delivery of client statements, meeting strict month-end deadlines for a portfolio of 50+ investors.

Capital Call and Distribution Workflow Automation

- Designed and implemented automated workflows for preparing and distributing capital call and distribution notices using Java Spring Boot, significantly reducing the potential for manual errors.
- Built RESTful APIs to allow seamless data exchange between the notice generation module and the investor database, improving data consistency across systems.
- Implemented comprehensive logging and error handling within the Java application to ensure robust transaction processing and facilitate troubleshooting for P1/P2 incidents.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
