PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Wrote **Python** scripts to automate daily reporting tasks and streamline ETL processes, reducing manual effort by approximately **30%**.
- Developed and maintained **Java Spring Boot** REST APIs for internal microservices, ensuring robust data exchange and integration with enterprise systems.
- Managed production incidents and SLA adherence for enterprise applications, performing root cause analysis and implementing fixes within defined response times using **Splunk** and **Dynatrace**.
- Assisted in the maintenance and improvement of **CI/CD pipelines** using **Jenkins** and **Git**, facilitating smoother and more frequent product releases.
- Supported cloud infrastructure management on **Azure** using **Terraform** and **Helm charts** under senior engineer guidance, contributing to Infrastructure-as-Code practices.
- Helped operate and maintain **Kubernetes clusters** (AKS), focusing on cluster health, resource management, and supporting declarative deployments via **Argo CD**.
- Contributed to the maintenance of observability tooling, including **Prometheus**, **Grafana**, and **Azure Monitor**, to ensure system performance and identify potential issues.

SKILLS

Cloud Platforms – Microsoft Azure, AWS

Containerization & Orchestration – Kubernetes, AKS, Docker, Helm charts, Argo CD

CI/CD & IaC – Jenkins, Terraform, Terragrunt, GitOps

Programming & Scripting – Python, Bash, Go, Java, Spring Boot

Observability & Monitoring – Prometheus, Grafana, Azure Monitor, OpenTelemetry, Splunk, Dynatrace

Systems & Networking – Linux, TCP/IP, DNS, Firewalls

PROJECTS

Cloud Infrastructure Automation with Terraform and AKS

- Automated the provisioning and management of Azure resources, including Kubernetes clusters (AKS), using **Terraform**, ensuring consistent and repeatable deployments.
- Developed and maintained **Helm charts** for deploying microservices into the Kubernetes environment, standardizing application packaging and configuration.
- Integrated **Argo CD** to implement GitOps workflows, enabling declarative, auditable, and automated deployments to the AKS clusters.

Python-based CI/CD Pipeline Enhancement

- Engineered **Python** scripts to automate build, test, and deployment stages within the **Jenkins** CI/CD pipelines, reducing manual intervention.
- Implemented automated code quality checks and security scanning steps into the pipeline, improving overall code integrity and security posture.
- Containerized application components using **Docker** for consistent deployment across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
