PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented a highly available and scalable **AWS** infrastructure for a SaaS product, integrating serverless architectures and containerisation best practices.
- Contributed to the enhancement of **CI/CD** pipelines using **Jenkins** and Git, automating deployments and improving code review processes for faster release cycles.
- Developed and maintained **Python** scripts for automating operational tasks and data processing, reducing manual intervention by approximately **30%**.
- Managed and monitored enterprise applications on **AWS** (EC2, S3, CloudWatch), responding to P1/P2 incidents and ensuring SLA adherence.
- Containerised applications using **Docker** and deployed them to **Kubernetes** clusters, facilitating consistent environments across development and production.
- Researched and adopted emerging cloud technologies, including AI-assisted coding tools like **Claude**, to streamline development workflows and improve troubleshooting efficiency.
- Collaborated with cross-functional teams and stakeholders to gather requirements, implement solutions, and support continuous improvement of the cloud environment.

SKILLS

Cloud Platforms – AWS, EC2, S3, Lambda, CloudWatch

Containerisation & Orchestration – Docker, Kubernetes

Infrastructure as Code (IaC) – Terraform, CloudFormation

Programming & Scripting – Python, Bash, Java, Spring Boot

CI/CD & DevOps – Jenkins, Git, CI/CD automation

AI & Developer Tooling – Claude, AI-assisted workflows

PROJECTS

Scalable Cloud Infrastructure for SaaS Platform (HCL Technologies)

- Engineered a scalable and highly available cloud infrastructure on **AWS**, incorporating **EC2** instances, **S3** for storage, and **CloudWatch** for monitoring.
- Implemented containerisation using **Docker** for application deployment, ensuring consistency and portability across different environments.
- Developed automation scripts in **Python** to streamline infrastructure provisioning and management tasks, reducing deployment times by an estimated **20%**.

CI/CD Pipeline Enhancement for Enterprise Applications (HCL Technologies)

- Optimised existing **CI/CD** pipelines using **Jenkins** and Git branching strategies, improving the reliability of automated builds and deployments.
- Integrated infrastructure-as-code practices with **CloudFormation** templates to manage and version AWS resources programmatically.
- Collaborated with development teams to refine deployment strategies, leading to a reduction in deployment-related incidents by **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
