## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the planning and documentation of key program initiatives across the Technology Platform, Engineering, and Operations (TPEO) group, ensuring alignment with strategic objectives.
- Developed and tracked project plans for multiple work packages, monitoring progress against timelines and reporting on key deliverables to leadership.
- Managed the end-to-end delivery of small-scale projects and improvement initiatives, adhering to established PMO governance models and best practices.
- Coordinated with cross-functional teams, including Engineering and Operations leads, to gather requirements, facilitate UAT, and address post-implementation feedback.
- Documented and tracked critical actions and decisions, creating internal communications and materials to support program leadership and stakeholder engagement.
- Identified and proposed opportunities to simplify and automate operational workflows, contributing to increased efficiency and reduced administrative burden.
- Assisted with PMO tooling enhancements and reported on compliance metrics, supporting the continuous improvement of project management processes and reporting capabilities.

## SKILLS

---

**Project Management** – Project Planning, Work Package Management, PMO Governance, Deliverable Tracking, Action Documentation, Internal Communications

**Process Improvement** – Workflow Automation, Operational Efficiency, Administrative Burden Reduction, Continuous Improvement, Solution Ownership

**Technical & Analytical** – Data Handling, Technical Solution Support, Tool Adoption, Problem Solving, Data Analysis

**Collaboration & Communication** – Cross-functional Teamwork, Stakeholder Communication, Interpersonal Skills, Customer Service, Independent Execution

**Core Technologies** – Jira, Confluence, Power BI, Python, SQL, Excel, Power Platform

## PROJECTS

---

### Technology Program Delivery Support (HCL Technologies)

- Provided dedicated support for a major technology program, documenting meeting minutes, tracking action items for over 50 participants across 5 teams, and maintaining the program's central Confluence space.
- Assisted in the development and tracking of project plans for work packages related to system updates and process enhancements, ensuring timely completion of tasks and dependencies.
- Generated weekly status reports using data from Jira and internal tracking tools, highlighting progress, risks, and upcoming milestones for program leadership review.

### Operational Workflow Automation Initiative (HCL Technologies)

- Automated a monthly reporting process for the financial-services dashboard team by developing Python scripts that extracted, transformed, and loaded data from PostgreSQL into a summary format, reducing manual effort by approximately 15 hours per month.
- Designed and built a Power BI dashboard to visualize key operational metrics for the payments processing workflow, providing stakeholders with real-time insights into transaction statuses and error rates.
- Collaborated with operations analysts to define reporting requirements and validate data accuracy, ensuring the dashboard met business needs for monitoring and decision-making.

## EDUCATION

---

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
