PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained financial models in **Excel** to support budgeting, forecasting, and long-range planning processes for an enterprise client.
- Prepared comprehensive **management reporting** packages, including detailed variance analysis and KPI dashboards, for senior leadership review.
- Collaborated with commercial and operational leaders to conduct in-depth **pricing and margin analysis**, identifying key drivers and opportunities for improvement.
- Supported the **month-end close** process by reconciling financial data, ensuring alignment between actuals, forecasts, and planned expenditures.
- Designed and implemented enhancements to financial planning tools, improving data accuracy and streamlining reporting cycles by an estimated **15%**.
- Prepared detailed presentations and financial insights for senior management and board-level reporting, translating complex data into actionable recommendations.
- Containerized financial reporting services using **Docker** for consistent deployment across development and production environments on **AWS EC2**.

SKILLS

Accounting & Finance – FP&A, Budgeting, Forecasting, Long-Range Planning, Management Reporting, Variance Analysis, KPI Dashboards, Month-End Close, P&L, Cash Flow, Balance Sheet, Commercial Drivers, Pricing Analysis, Margin Analysis, Cost Optimisation, Business Cases, Scenario Modelling, Irish Accounting Standards

Tools & Platforms – Excel, Power BI, SAP, Oracle, Anaplan, Adaptive, Jira, Confluence, Jenkins, Git

Programming & Scripting – Python, SQL, Java, Spring Boot

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker

Data Analysis & BI – Data Modelling, DAX, Power Query, Tableau, R, pandas, NumPy

Financial Systems – ERP Systems, Financial Planning Tools

PROJECTS

Financial Planning & Analysis Model Enhancement

- Developed a dynamic financial model in **Excel** to forecast revenue and operational expenses for a simulated business unit, incorporating multiple scenario variables.
- Integrated **Power Query** to automate data ingestion from disparate sources, reducing manual data preparation time for quarterly forecasts by approximately **30%**.
- Created interactive **Power BI** dashboards to visualize key performance indicators and forecast variances, enabling clearer communication with business stakeholders.

Automated Reporting Framework for Enterprise Systems

- Engineered **Python** scripts to extract and transform data from enterprise systems, generating automated daily and weekly operational reports.
- Wrote **SQL** queries against PostgreSQL databases to validate data integrity and populate reporting tables, ensuring accuracy for over **2,000** distinct data points.
- Managed the deployment and scheduling of Python-based reporting jobs using **Jenkins** pipelines, improving report delivery reliability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
