PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed daily caseload and resolved incidents for live hospital systems across the EU, ensuring service restoration and adherence to ITIL best practices.
- Participated in continuous service improvement initiatives, analyzing incident trends to identify root causes and propose preventative measures for operational stability.
- Developed and maintained knowledge articles for common issues and resolutions, reducing ticket resolution time for the support team by an average of 18%.
- Collaborated with cross-functional teams to manage system configurations and coordinate User Acceptance Testing (UAT) for enterprise system updates.
- Supported production environments with strict SLAs and audit trails, responding to P1/P2 incidents and performing root cause analysis on critical system failures.
- Automated data validation and scheduled reporting tasks using **Python scripting**, reducing manual effort by approximately 12 hours per week for the operations team.
- Containerised Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time.

SKILLS

Operating Systems – Linux, Windows Server

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy

Tools & Technologies – Docker, Jenkins, Splunk, Dynatrace, Jira, Git, Confluence

Methodologies – Agile, Scrum, ITIL

PROJECTS

Enterprise Application Support & Automation

- Provided L2/L3 production support for a suite of Java Spring Boot applications, resolving an average of 30 incidents per week, including critical P1/P2 events.
- Automated ETL processes for daily operational reporting using **Python and SQL**, consolidating data from multiple PostgreSQL and Oracle databases into a central repository.
- Developed shell scripts to automate log analysis and system health checks on **Linux servers**, reducing manual monitoring time by 4 hours weekly.

Customer Service Dashboard Enhancement

- Enhanced an internal customer service dashboard by adding new data visualizations and refining **Power Query** data transformations, improving report clarity for stakeholders.
- Developed **DAX measures** in Power BI to calculate key performance indicators for customer ticket resolution times, enabling faster identification of bottlenecks.
- Collaborated with business analysts to gather requirements for new dashboard features, ensuring alignment with operational needs and delivering timely UAT support.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
