PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Served as the primary point of contact for IT support queries via phone, email, and the support portal, ensuring a positive user experience for over 150 enterprise users daily.
- Managed and prioritized incoming requests within an IT service management tool, effectively tracking and updating issues to meet agreed-upon SLAs.
- Troubleshooted a range of hardware, software, and network issues for Windows-based systems, providing clear, step-by-step guidance to resolve common user problems.
- Assisted users with routine tasks such as password resets and application access provisioning, maintaining security standards throughout the process.
- Collaborated with senior technical teams to escalate and resolve complex issues, ensuring timely handovers and accurate documentation of actions taken.
- Contributed to the development of a knowledge base by authoring and updating articles for frequently asked questions, reducing common query resolution time by approximately 20%.
- Monitored system notifications and responded to critical events, proactively informing relevant teams to minimize potential disruptions to business operations.

SKILLS

Core IT Support – IT Helpdesk, Ticketing Systems, Incident Management, Problem Solving, Service Level Agreements (SLAs), User Support, Troubleshooting

Operating Systems – Windows, Linux

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git, Docker

Programming & Scripting – Python, Java, SQL, Spring Boot

Customer Service – Communication Skills, Customer Orientation, Empathy, Professionalism, Time Management, Prioritization

PROJECTS

Enterprise Application Support & Automation (HCL Technologies)

- Provided production support for enterprise Java and .NET applications, focusing on SLA management and P1/P2 incident response using Splunk and Dynatrace.
- Developed Python scripts to automate data extraction and reporting tasks for operational teams, reducing manual effort by an estimated 15 hours per week.
- Managed change control processes for system configuration updates, coordinating UAT and providing post-go-live support across interconnected enterprise systems.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Supported a payments operations dashboard for a financial services client, monitoring transaction flows and providing operational alerting for failed payment messages.
- Wrote SQL queries across PostgreSQL and Oracle databases for data validation and ad-hoc reporting, ensuring data integrity for operational metrics.
- Collaborated with business analysts to gather requirements and support user acceptance testing for dashboard enhancements, improving visibility into transaction statuses.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
