PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed a daily caseload of over 50 incidents, resolving critical issues for EU hospital systems and restoring services within defined SLAs.
- Developed and maintained **Python scripts** to automate data extraction and reporting for operational dashboards, reducing manual effort by approximately **40%**.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements for system enhancements and support UAT processes.
- Provided IT support for enterprise users, troubleshooting issues across **Windows Server**, **Linux**, and various **applications**, ensuring high availability for mission-critical services.
- Participated in continuous service improvement initiatives, documenting common issues and solutions in a knowledge base to expedite resolution times for recurring problems.
- Contributed to change management processes, coordinating updates and post-go-live support for integrated enterprise systems.
- Containerized several Java Spring Boot applications using **Docker** for consistent deployment across development and production environments.

SKILLS

Operating Systems – Windows Server, Linux

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS, Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Methodologies – Agile, Scrum, ITIL

PROJECTS

Enterprise Application Support & Automation

- Provided production support for enterprise Java and .NET applications, performing log analysis using **Splunk** and responding to P1/P2 incidents to maintain service stability.
- Automated routine data validation tasks using **Python** and **SQL**, processing approximately **1,500** records daily to ensure data integrity for downstream reporting.
- Contributed to CI/CD pipelines using **Jenkins** and **Git** for code deployments and managed defect tracking within **Jira**.

Customer Service Dashboard Enhancement

- Developed interactive **Power BI** dashboards to visualize key performance indicators for customer support operations, enabling stakeholders to monitor service levels.
- Wrote **DAX** measures and utilized **Power Query** to transform and model data from multiple sources for the reporting dashboards, improving data accessibility for the operations team.
- Supported live systems for enterprise customers, focusing on maintaining and enhancing existing services to meet operational demands.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
