PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Monitored real-time contact centre queues and performance metrics, providing immediate guidance to operations teams to ensure adherence to **service level goals**.
- Managed intraday resource allocation and off-phone activity, partnering with management to align staffing with real-time demand based on **performance and shrinkage analysis**.
- Generated periodic reports detailing real-time and historical performance data, supporting operations management in a high-volume customer service environment.
- Provided analytical support and reporting on workforce management activity to operations managers, integrating real-time, historical, and future data points.
- Developed proactive partnerships with internal users, anticipating needs and delivering solutions for operational efficiency and **improved customer journey**.
- Coordinated workflow across multiple accounts, ensuring consistent performance standards and governance frameworks were embedded within the **MI, Planning, and Insights function**.
- Analyzed and responded to service level variations by collaborating with operations to match staff to demand and reallocate call volumes dynamically.

SKILLS

Workforce Management Tools – Verint, NICE, Genesys, Active OPS, CISCO

Analytics & Reporting – Intraday Reporting, Real-Time Insights, Short-term Forecasting, Performance Analysis, Erlang C

Data Analysis & Tools – SQL, Basic Statistics, Data Modelling, Power BI, Tableau

Core Competencies – Queue Management, Workflow Coordination, SLA Management, Resource Allocation, Demand Forecasting

Software Development Lifecycle – Agile Methodologies, Change Management, CI/CD, Git, Jenkins

Programming Languages – Java, Python, SQL

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

PROJECTS

Contact Centre Performance Monitoring Dashboard

- Developed a **Power BI dashboard** to visualize real-time contact centre metrics including queue wait times, agent adherence, and service level attainment for **operations management**.
- Engineered **SQL queries** to extract and aggregate data from multiple sources, feeding into the Power BI model for comprehensive reporting and analysis.
- Implemented data refresh schedules and user access controls, ensuring stakeholders had up-to-date insights for **intraday decision-making**.

Python Automation for Workforce Management Reporting

- Automated the generation of daily workforce management reports using **Python scripts**, consolidating data from various WFM tools and reducing manual effort by approximately **15 hours per week**.
- Developed **data pipelines** to clean and transform raw data, ensuring accuracy and consistency for key performance indicators like occupancy and utilization.
- Integrated Python scripts with scheduled tasks on **Linux** servers to ensure timely delivery of reports to the planning and insights teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
