PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and developed scalable backend services in **Java Spring Boot** to manage the end-to-end data lifecycle, ensuring data governance and integrity for enterprise applications.
- Designed and implemented **core frameworks** and tooling for secure data processing, directly supporting **regulatory compliance** initiatives across the organization.
- Engineered **automated solutions** for real-time system monitoring and risk detection, improving operational resilience and incident response times by an average of **18%**.
- Developed and maintained **REST APIs** using **Java Spring Boot**, facilitating seamless data exchange between internal systems and external partners.
- Managed production support for enterprise applications, resolving P1/P2 incidents and ensuring adherence to strict service level agreements (SLAs) using **Splunk** and **Dynatrace**.
- Scripted **Python automation** for data pipelines and ETL processes, enhancing data processing efficiency and enabling scheduled reporting for business stakeholders.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and resource utilization.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Hibernate, JPA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Concepts – System Design, Distributed Systems, Data Governance, Regulatory Compliance, Agile Methodologies, REST APIs

PROJECTS

Data Privacy Framework Implementation (HCL Technologies)

- Developed a Java-based framework to enforce data access policies and track data lineage for sensitive enterprise information, aligning with **GDPR** principles.
- Engineered automated data masking and anonymization routines using **Python scripts** and **SQL**, reducing manual effort by approximately **30%** for compliance reporting.
- Integrated the framework with existing production systems, ensuring secure data processing and audit trail generation for regulatory reviews.

Real-time Transaction Monitoring System (HCL Technologies)

- Built a **Java Spring Boot** service to ingest and process high-volume transaction data, identifying anomalies and potential risks in near real-time.
- Implemented robust error handling and alerting mechanisms using **AWS CloudWatch**, ensuring system resilience and timely notification of operational issues.
- Designed a **REST API** interface for querying transaction status and alerts, supporting downstream operational dashboards and incident management workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
