PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and modeled innovative mechanical solutions for next-generation heavy equipment using **SolidWorks**, including complex weldments and assemblies.
- Created detailed Bills of Materials (BOMs) for new designs and collaborated with **external suppliers** to gather critical product data, ensuring accuracy for manufacturing.
- Resolved real-time engineering problems encountered on the **production floor**, quickly diagnosing issues and implementing practical, field-ready solutions.
- Collaborated cross-functionally with **operations and customer support** teams to gather design requirements and provide technical input for product improvements.
- Developed and maintained **Java Spring Boot** REST APIs for internal tooling, supporting data exchange between disparate enterprise systems.
- Scripted **Python automation** tasks to streamline data ingestion and reporting for operational dashboards, reducing manual effort by approximately **15 hours** per week.
- Managed and monitored production Java/.NET applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and maintaining SLA targets.

SKILLS

CAD/CAM – SolidWorks, 3D Modeling, Assemblies, Weldments, BOM Creation

Engineering Principles – Mechanical Design, Hydraulic Systems, Electrical Systems Integration, Finite Element Analysis (FEA), Technical Feasibility, Commercial Impact

Software Development – Java, Spring Boot, Python, REST APIs, SQL (PostgreSQL, MySQL, Oracle)

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Operations & Support – Production Support, Incident Response, SLA Management, Change Management, Jira, Confluence, Linux Shell Scripting

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, pandas, NumPy, scikit-learn

PROJECTS

Heavy Equipment Design & Prototyping (HCL Technologies)

- Developed 3D CAD models and detailed engineering drawings for a new line of industrial equipment using **SolidWorks**, focusing on modular design principles.
- Participated in cross-functional design reviews with operations and product management to ensure designs met functional, safety, and manufacturability requirements.
- Authored technical documentation and assembly instructions, supporting the transition from prototype to initial production runs.

Automated Production Reporting (HCL Technologies)

- Engineered Python scripts to extract and transform data from multiple enterprise systems, generating daily operational reports for a financial-services dashboard.
- Implemented data validation checks using **SQL** and **pandas** to ensure the accuracy of ingested data, improving report reliability by an estimated **18%**.
- Scheduled and deployed automated reports via Jenkins, providing timely insights to operations teams without manual intervention.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
