PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot REST APIs** for core business services, handling approximately 1,500 requests per minute.
- Implemented **Hibernate** entities and optimized SQL queries across PostgreSQL and Oracle databases, reducing data retrieval times by 18% for critical reporting functions.
- Wrote comprehensive **JUnit** test suites and utilized **Mockito** for mocking dependencies, achieving over 85% code coverage for new feature modules.
- Collaborated with cross-functional teams to translate business requirements into technical specifications for enterprise systems, ensuring alignment with operational goals.
- Managed production incidents for enterprise-level financial services applications, performing root cause analysis and implementing fixes within strict SLA parameters.
- Automated data extraction and reporting tasks using **Python scripting** and **pandas**, reducing manual effort by 10 hours per week for the operations team.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing environment setup time.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, JPA, REST APIs, Microservices, JUnit, Mockito, Maven, Gradle, Python, Flask, FastAPI

Databases – SQL, PostgreSQL, MySQL, Oracle, Data Modelling, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Statistical Analysis

Enterprise Systems – ERP Integration Support, Change Management, Production Support, Incident Response, SLA Management

Methodologies – Agile, Scrum, Jira, Confluence

PROJECTS

Enterprise Java Application Modernization

- Refactored a monolithic Java application into microservices using **Spring Boot**, improving system modularity and enabling independent deployments.
- Integrated **Hibernate** and PostgreSQL for data persistence, ensuring data integrity and efficient query performance for transactional workflows.
- Developed robust **REST APIs** to facilitate inter-service communication, supporting seamless data exchange across the application landscape.

Python-Based ETL for Operational Reporting

- Designed and implemented an **ETL pipeline** using **Python** and **pandas** to ingest data from multiple sources into a central data warehouse.
- Automated the generation of daily operational reports using **SQL** and Python scripting, reducing manual processing time by approximately 75% for the analytics team.
- Applied data cleaning and transformation techniques to ensure data accuracy and consistency for downstream business intelligence tools.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
