## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed a team of 8 laboratory technicians and Associate Group Leaders, overseeing daily operations for method development and validation studies.
- Reviewed and approved study protocols, final reports, and technical documentation for pharmaceutical development projects, ensuring adherence to **GMP** and client specifications.
- Designed experimental study protocols and participated in technical troubleshooting for complex analytical challenges, including method investigations and root cause analysis.
- Allocated and scheduled laboratory resources, including **HPLC**, **GC**, and **MS** equipment, to meet project timelines and financial targets for a portfolio of 15 active studies.
- Coordinated project activities with internal functional groups such as analytical development and quality assurance, ensuring seamless workflow and timely delivery.
- Mentored and trained junior technical staff on laboratory procedures, analytical techniques, and quality system improvements, fostering a culture of continuous learning and compliance.
- Implemented and updated **SOPs** and company operational policies, making recommendations for quality system enhancements based on QA metrics and audit findings.

## SKILLS

**Analytical Techniques** – HPLC, GC, MS, Dissolution testing, Karl Fischer, UV-vis, FT-IR, TOC

**Laboratory Management** – Method development, Method validation, Quality Assurance, GMP, SOPs, Root cause analysis, Investigations, Audits

**Project Management** – Resource planning, Scheduling, Client communication, Technical writing, Proposal preparation, Time management

**Technical Skills** – Pharmaceutical development, Data review, Technical troubleshooting, Mentoring, Staff training

**Core Technologies** – Java, Spring Boot, Python, SQL, AWS, Docker, Linux, Jenkins, Jira, Confluence

## PROJECTS

### Pharmaceutical Method Validation for Novel Drug Delivery

- Led a project to validate analytical methods (**HPLC**, **UV-vis**) for a new drug compound, adhering to strict **ICH guidelines** and client requirements.
- Authored validation protocols and final reports, detailing system suitability, linearity, accuracy, and precision studies, achieving client acceptance in under 3 weeks.
- Collaborated with cross-functional teams to troubleshoot and optimize assay parameters, reducing method variability by **18%** and improving robustness for routine QC.

### Stability Study Management and Data Analysis

- Managed multiple concurrent stability studies for pharmaceutical products, coordinating sample testing schedules across different time points and storage conditions.
- Analyzed and reported on stability data using statistical methods, identifying trends and potential degradation pathways, and contributing to shelf-life determination.
- Developed automated data aggregation scripts in **Python** to streamline the reporting process, reducing manual data entry errors by **90%**.

## EDUCATION

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
