PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and executed experiments for method validation and analytical testing of biopharmaceutical compounds, requiring minimal supervision.
- Prepared study protocols, project status reports, and final study reports, ensuring adherence to protocols and client criteria.
- Reviewed, interpreted, and analyzed data for technical accuracy, quality, and compliance with GMP and GLP standards prior to QA submission.
- Mentored and trained laboratory team members on analytical procedures and assisted in troubleshooting instrument and analytical challenges.
- Collaborated with cross-functional teams to define project timelines and assist in the design of method validation and transfer protocols.
- Communicated complex data and technical issues to clients, addressing their needs and answering technical questions effectively.
- Contributed to the upkeep of quality systems and assisted with the integration and validation of new laboratory equipment.

SKILLS

Biology/Assay – Cell Biology, Biochemistry, Immunology, Mammalian Cell Culture, Cell Based Assays, ADCC, Proliferation Assays, Reporter Gene Assays, Binding ELISA, Microtiter Plate Readers, Softmax, PLA Analysis

Quality/Compliance – GMP, GLP, ICH Guidelines, USP Requirements, FDA Guidance, Method Validation, Method Transfer, Quality Systems

Data Analysis/Reporting – Technical Writing, Data Interpretation, Statistical Analysis, Microsoft Excel, Microsoft Word

Laboratory Operations – Troubleshooting, Instrument Maintenance, Laboratory Management, Scientific Experimentation

Project Management – Project Timelines, Protocol Design, Client Communication

PROJECTS

Biopharmaceutical Compound Analysis & Validation

- Performed independent method validations and analytical testing on diverse pharmaceutical and biopharmaceutical compound formulations.
- Designed and executed experimental protocols to assess compound stability and efficacy, documenting findings for regulatory review.
- Analyzed assay data using statistical methods and prepared comprehensive reports detailing results and compliance with GMP standards.

Cellular Assay Development & Mentorship

- Developed and optimized plate-based assays, including ELISA and cell-based proliferation tests, using microtiter plate readers.
- Trained junior scientists on experimental procedures and data interpretation, fostering a collaborative and accurate laboratory environment.
- Troubleshoot assay performance issues and instrument malfunctions, ensuring consistent and reliable experimental outcomes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
