PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production support for enterprise applications, responding to P1/P2 incidents and meeting strict SLAs using **Splunk** and **Dynatrace** for monitoring.
- Developed Python scripts to automate data ingestion and transformation, creating scheduled reports for operational insights and reducing manual processing time by approximately **15%**.
- Performed ad-hoc SQL queries and data validation across **PostgreSQL** and **MySQL** databases for troubleshooting and supporting system updates.
- Contributed to feature development in Java Spring Boot, building and modifying **REST APIs** for internal services and resolving reported bugs.
- Updated **ArcGIS** system with information from internal crews and subcontractors, ensuring accurate geospatial data for future development planning.
- Collaborated with the **GIS team** to troubleshoot and resolve bugs experienced by site crews on the ArcGIS system.
- Containerised Java applications using **Docker** for consistent deployment across development and production environments on **AWS EC2**.

SKILLS

Cloud – AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Java, Python, SQL, Shell Scripting

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, ArcGIS

Methodologies – Agile, Scrum

PROJECTS

Enterprise Systems Integration and Automation (HCL Technologies)

- Developed Python scripts to automate data extraction and loading between enterprise systems, including an ERP module and a financial operations dashboard, improving data consistency.
- Built and maintained **REST APIs** using Java Spring Boot to facilitate data exchange between interconnected business systems, supporting cross-system integrations.
- Managed change control processes for system configuration updates, coordinating User Acceptance Testing (UAT) and providing post-go-live support for integrated platforms.

Geospatial Data Management for Infrastructure Projects (HCL Technologies)

- Ingested and processed survey information, preparing material specifications and Bills of Quantities (BOQ) for infrastructure projects.
- Updated and maintained critical data within the **ArcGIS system**, incorporating information from field crews and subcontractors to support project planning and development.
- Collaborated with internal teams to implement calculations and drawings, ensuring technical design accuracy for client requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
