PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Acted as Lead Designer for a major infrastructure renewal contract, overseeing all project phases from conception to completion.
- Mentored and reviewed the design work of **3 junior engineers**, ensuring adherence to project specifications and quality standards.
- Attended **client strategy meetings**, providing expert technical advice on structural design challenges and potential solutions.
- Designed **steelwork and reinforced concrete** elements for a new commercial development, ensuring compliance with **Eurocode Standards**.
- Prepared comprehensive **material specifications** and detailed calculation packages for structural components, facilitating smooth construction.
- Conducted on-site quality audits and meticulously recorded **as-built information**, ensuring project integrity and documentation accuracy.
- Contributed to the enhancement of TLI Group's **ISO 9001** accreditation by implementing improved design processes and documentation protocols.

SKILLS

Core Engineering – Structural Design, Steelwork Design, Reinforced Concrete Design, Foundation Design, Geotechnical Design, Temporary Works Design, Eurocode Standards

Software & Tools – AutoCAD, Tekla Tedds, MS Word, MS Excel, MS Outlook

Project Management – Project Management, Client Liaison, Business Development, Tendering/Bid Support, Material Specifications, Calculation Packages

Quality & Compliance – On-site Quality Auditing, As-Built Information, Design Certificates, ISO 9001, ISO 14001, ISO 18001, PSDP Representative

Teamwork & Mentoring – Mentoring Junior Engineers, Design Review, Multidisciplinary Design Team Collaboration, Technical Advice

PROJECTS

Structural Design for Urban Renewal Program

- Served as the primary structural designer for a multi-phase urban renewal initiative, focusing on integrating new steel and concrete structures with existing infrastructure.
- Developed detailed design calculations and drawing packages for foundations, steelwork, and reinforced concrete elements, adhering to stringent **Eurocode Standards**.
- Collaborated with civil and geotechnical engineers to specify survey requirements and foundation designs, ensuring structural integrity and site suitability.

Commercial Building Steelwork & Foundation Design

- Designed the primary steel frame and reinforced concrete foundation system for a new 5-story commercial office building, optimizing for material efficiency and load-bearing capacity.
- Managed the preparation of technical specifications and ensured timely delivery of design outputs to the construction team, facilitating a 2-week reduction in the pre-construction phase.
- Performed site visits to verify design adherence and to assist in specifying immediate technical requirements during the early construction stages.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
