PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for core business functionalities and integrating with PostgreSQL persistence.
- Engineered **Hibernate/JPA** entities and query logic to optimize data retrieval and persistence operations, reducing average query execution time by **18%**.
- Designed and implemented object-oriented solutions in **Java**, adhering to established design patterns and ensuring code quality through comprehensive **JUnit** and **Mockito** testing.
- Collaborated with product managers and designers to translate complex user requirements into technical specifications for new guest engagement features.
- Participated in agile ceremonies, including sprint planning and daily stand-ups, providing technical estimations and contributing to team velocity improvements.
- Containerized backend services using **Docker** for consistent development and deployment environments, and managed deployments on **AWS EC2** instances.
- Monitored application performance and stability using **Splunk** and **CloudWatch**, responding to P1/P2 incidents and performing root cause analysis to prevent recurrence.

SKILLS

Languages – Java, Python, SQL, JavaScript, TypeScript, Kotlin

Frameworks/Libraries – Spring Boot, Hibernate, JPA, React, GraphQL, Tailwind CSS, NestJS

Databases – PostgreSQL, MySQL, Oracle, DynamoDB

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Tools/Observability – Splunk, Dynatrace, Jira, Confluence, Postman

Data Analytics/BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn, R/RStudio

PROJECTS

Guest Engagement Platform Enhancement (HCL Technologies)

- Developed new user-facing features for a customer relationship management system using **React** and **TypeScript**, improving data visualization for sales teams.
- Integrated a **RESTful API** with an existing Java Spring Boot backend to enable real-time customer data synchronization, processing approximately **500 requests per minute**.
- Collaborated with business analysts to define and document technical requirements for a new customer loyalty program module, ensuring alignment with stakeholder expectations.

Automated Reporting Service (HCL Technologies)

- Built a Python-based ETL pipeline using **pandas** and **SQLAlchemy** to extract, transform, and load data from multiple enterprise systems into a central data warehouse.
- Automated the generation of daily operational reports using **Python scripting** and scheduled execution via cron jobs, reducing manual reporting effort by **~90%**.
- Designed and implemented database schema changes in **PostgreSQL** to accommodate new data sources and reporting requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
