PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Engineered and deployed **Java Spring Boot** REST APIs for internal services, handling approximately 1,500 requests per minute during peak hours and integrating with PostgreSQL databases.
- Developed and maintained **Hibernate** entities and performed complex JPQL queries to support data retrieval and manipulation for enterprise applications, ensuring data integrity across transactions.
- Designed and implemented object-oriented solutions using **Java EE patterns** and wrote comprehensive **JUnit** test suites, achieving over 80% code coverage for new feature modules.
- Collaborated with Product Managers and Senior Engineers in discovery sessions, utilizing **AI coding assistants** to rapidly prototype innovative features for cloud platforms.
- Integrated new **AI agents** and automation tools into **CI/CD pipelines**, reducing manual overhead in the build and deployment process by an estimated 15%.
- Contributed to the development of cloud-native SaaS applications, actively participating in **Agile/Scrum** ceremonies and sprint-based feature delivery.
- Containerized backend services using **Docker** and deployed to an **AWS EKS** cluster, managing configurations and basic resource allocation for improved stability.

SKILLS

Backend Development – Java, Spring Boot, .NET Core, C#, Node.js, Hibernate, JPA, REST APIs

Frontend Development – React, Angular, TypeScript

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS, Docker, Kubernetes, Jenkins, CI/CD, Git

AI & Productivity Tools – GitHub Copilot, Cursor, AI Agents

Methodologies – Agile, Scrum

PROJECTS

AI-Augmented Feature Development Platform

- Built a **Java Spring Boot** microservice to serve AI-generated code snippets and documentation to internal development teams, processing over 200 requests daily.
- Integrated a **GitHub Copilot** API to provide real-time code suggestions within an internal IDE plugin, enhancing developer velocity by an estimated 10% in pilot testing.
- Developed automated testing scripts using **JUnit** to validate the output and performance of AI-generated code modules, ensuring adherence to project standards.

Cloud Infrastructure Automation Suite

- Designed and implemented **Docker** containerization for multiple backend services, streamlining deployment processes across development and staging environments.
- Developed **Jenkins** pipelines to automate the build, test, and deployment of applications to **AWS** infrastructure, reducing manual deployment time by 40%.
- Managed application configurations and secrets using **Kubernetes** manifests, ensuring consistent and secure deployments to the production cluster.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
