PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed **Python** scripts for automating data extraction and transformation tasks, reducing manual processing time by approximately **30%**.
- Designed and implemented **Java Spring Boot** REST APIs to support data ingestion from various enterprise systems, handling an average of **1,500 requests per hour**.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, focusing on P1/P2 incident response and SLA adherence for critical financial operations.
- Engineered data processing pipelines using **Python** and **SQL** to aggregate and clean data from multiple sources for analytical reporting, supporting a team of **5 analysts**.
- Contributed to the development of an MSc capstone project involving the creation of interactive **Power BI** dashboards and **DAX** measures to visualize key performance indicators for business stakeholders.
- Implemented foundational machine learning models using **scikit-learn** within an MSc Data Analytics coursework, experimenting with classification algorithms on structured datasets.
- Containerized a Java Spring Boot application using **Docker** and deployed it to an **AWS EC2** instance, establishing basic CI/CD integration with **Jenkins**.

SKILLS

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics Tools – Power BI, Tableau, DAX, Power Query

Operations & Monitoring – Splunk, Dynatrace, Linux, Shell Scripting

Methodologies – Agile, Scrum

PROJECTS

Automated Data Pipeline for Research Aggregation

- Developed a **Python**-based ETL pipeline to ingest and process research papers from multiple online repositories, automating data cleaning and normalization.
- Implemented data validation checks and error handling to ensure data integrity for over **5,000** ingested documents, supporting downstream analytical tasks.
- Integrated the pipeline with a PostgreSQL database, structuring the data for efficient querying and analysis by academic researchers.

Interactive Sales Performance Dashboard

- Designed and built an interactive **Power BI** dashboard to visualize sales performance metrics, including revenue, units sold, and regional breakdowns.
- Created complex **DAX** measures for calculating year-over-year growth, rolling averages, and custom sales targets, enhancing reporting capabilities.
- Published and shared the dashboard with business stakeholders, facilitating data-informed decision-making and performance tracking for the sales team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
