PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in the analysis and documentation of business and system requirements for accounting-based projects, focusing on process optimization and efficiency improvements.
- Supported the elicitation of requirements for technology-driven solutions within defined methodologies and governance frameworks for the Global Account Center team.
- Tracked and documented progress of assigned tasks related to accounting projects, ensuring alignment with project objectives and adherence to quality standards.
- Analyzed existing accounting processes and data using **GAAP principles** and analytical techniques to identify opportunities for automation and compliance.
- Collaborated with cross-functional and global teams in a hybrid environment to gather requirements and support the delivery of technology solutions.
- Coordinated and facilitated virtual meetings with stakeholders to drive project progress and ensure alignment on system enhancements.
- Supported resolution of project performance issues by identifying and escalating risks impacting project scope and timelines.

SKILLS

Business Analysis – Requirements Elicitation, Requirements Analysis, Process Optimization, Solution Recommendation, Stakeholder Management

Accounting & Finance – GAAP Principles, Accounting Data Analysis, Financial Processes

Project Management – Project Tracking, Task Management, Timeline Management, Risk Identification, Stakeholder Reporting

Collaboration & Communication – Cross-functional Collaboration, Virtual Meetings, Facilitation, Influencing Skills, Team Player

Technical Skills – SQL, Python Scripting, Java Spring Boot, REST APIs, AWS, Docker, Linux

PROJECTS

Accounting Process Automation Initiative

- Developed Python scripts to automate the generation of monthly financial reconciliation reports, reducing manual effort by approximately 40% for the finance operations team.
- Designed and implemented data validation checks using SQL queries across PostgreSQL and Oracle databases to ensure accuracy of financial data inputs for reporting.
- Documented the automated workflow and provided training to the operations team on utilizing the new reporting tools, improving data consistency across the department.

Enterprise Systems Integration Analysis

- Analyzed integration points between the ERP system and a custom financial services dashboard, identifying data flow bottlenecks and proposing REST API enhancements.
- Mapped existing transaction processing workflows and documented requirements for a new reconciliation module, focusing on audit trail integrity and GDPR compliance.
- Collaborated with business analysts and operations teams to define acceptance criteria for system changes, supporting UAT cycles and post-implementation triage.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
