PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in analyzing and documenting manufacturing operations, including **production**, **quality**, and **warehouse processes** to identify areas for IT-driven improvements.
- Facilitated requirements gathering sessions with business stakeholders across European manufacturing sites, synthesizing information from diverse sources to define functional and non-functional needs.
- Participated in the implementation of global IT projects within manufacturing plants, ensuring alignment with regional business objectives and harmonizing best practices.
- Provided day-to-day support for the installed application portfolio at a site, collaborating with cross-functional IT teams to resolve operational issues and maintain service levels.
- Acted as a system owner for global applications deployed at a manufacturing site, ensuring adherence to **GxP** and **SOX compliance** requirements.
- Coordinated between SAP end-users and the IT support organization to document business needs and assist in prioritizing requirements for enhanced SAP functionality.
- Managed system configuration updates and change control processes, coordinating User Acceptance Testing (UAT) and providing post-go-live support for interconnected enterprise systems.

SKILLS

Business Analysis – Requirements Gathering, Process Analysis, Use Cases, Workflow Analysis, Value Stream Mapping, Stakeholder Management, User Acceptance Testing (UAT), Change Management, Business Process Improvement

ERP & Manufacturing Systems – SAP Operations Modules, Manufacturing Operations Management (MOM), Manufacturing Execution System (MES), Plant Maintenance Processes

IT Compliance & Governance – GxP Compliance, SOX Compliance, System Development Life Cycle (SDLC), Computerized System Validation (CSV)

Technical Skills – REST APIs, SQL, Java Spring Boot, Python Scripting, Docker, AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git, Linux

Data Analysis & Reporting – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R / RStudio, pandas, NumPy

PROJECTS

Manufacturing Operations Process Analysis & IT Integration

- Analyzed and mapped current state manufacturing and warehouse workflows for a European site, identifying key bottlenecks and areas for IT system optimization.
- Collaborated with operations leads to define requirements for a new module within an enterprise resource planning system, focusing on improving production visibility and control.
- Documented proposed system enhancements and facilitated UAT sessions with end-users, ensuring proposed solutions met defined business needs and compliance standards.

Enterprise System Integration & Support Dashboard

- Developed a Python-based automation script to extract and aggregate data from multiple enterprise systems (PostgreSQL, Oracle) for operational reporting.
- Designed and built an interactive dashboard using **Power BI** to visualize key operational metrics and support data validation for cross-system integrations.
- Provided production support for the data aggregation pipelines, resolving ~15-20 data discrepancy issues per sprint through SQL query analysis and scripting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
