PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed and documented complex business processes across manufacturing, quality, warehouse, and plant maintenance functions to identify operational inefficiencies and support strategic IT initiatives.
- Facilitated requirements gathering workshops with cross-functional teams, translating high-level business needs into detailed functional specifications for IT solutions.
- Supported the implementation of global IT projects at a European manufacturing site, ensuring alignment with regional best practices and harmonization objectives.
- Collaborated with external and internal customers to gather information needs and functional requirements, delivering project methodology artifacts according to established project lifecycles.
- Provided day-to-day support for the installed application portfolio at a manufacturing site, working with the Run team to resolve operational issues.
- Coordinated between SAP end-users and the IT support organization to document business needs, prioritize requirements, and assist in developing and testing SAP enhancements.
- Managed system configuration updates and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring smooth post-go-live operations.

SKILLS

Business Analysis – Requirements Elicitation, Process Analysis, Use Cases, Workflow Analysis, Value Stream Mapping, User Needs Analysis, Business Process Descriptions, Gap Analysis

IT Systems & Platforms – SAP (Materials Management, Warehouse Management, Production Planning, Quality Management), ERP Systems, Manufacturing Operations Management (MOM), Manufacturing Execution System (MES)

Project Management & Collaboration – Global IT Projects, Regional Implementation, Change Management, Stakeholder Communication, Project Methodology, Cross-functional Collaboration, UAT Coordination

Technical Skills – REST APIs, SQL, Python Scripting, Java Spring Boot, Incident Response, Root Cause Analysis, System Integrations

Compliance & Governance – GxP Compliance, SOX Compliance, GDPR Awareness, Audit Trails, Regulatory Compliance

PROJECTS

Manufacturing Operations Process Improvement Initiative

- Mapped and analyzed existing manufacturing and warehouse workflows for a key European site, identifying bottlenecks in material handling and quality control processes.
- Developed detailed process flow diagrams and use cases to support the implementation of a new Manufacturing Operations Management (MOM) system.
- Collaborated with site operations leads and IT to define requirements for system enhancements, improving data visibility for production planning and quality assurance teams.

SAP Application Support & Enhancement Coordination

- Acted as a liaison between SAP end-users in Materials Management and the IT support organization for a large enterprise client.
- Documented and prioritized enhancement requests for SAP functionality, contributing to the development and testing of new features that streamlined inventory tracking.
- Supported change management activities for SAP system updates, including coordinating UAT cycles and providing post-implementation support to ensure successful adoption.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
