PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained interactive **React** components for an eCommerce store, enhancing user engagement for approximately **7 million users**.
- Integrated frontend applications with **RESTful webservices**, ensuring seamless data flow between the client-side and backend systems.
- Implemented responsive design principles and modern frontend development practices to create accessible user interfaces across various devices.
- Contributed to sprint planning and backlog refinement sessions, providing technical estimations and collaborating on feature scope with a distributed team.
- Participated in team design discussions, presenting and defending proposed **React** solutions to technical stakeholders, including Principal Engineers.
- Collaborated with backend engineers to integrate new features for the eCommerce store, focusing on improving the shopping experience and personalization strategy.
- Containerized frontend applications using **Docker**, facilitating consistent deployment across development, staging, and production environments on **AWS**.

SKILLS

Frontend Development – React, JavaScript, TypeScript, HTML, CSS, Responsive Design, Accessibility, UI Development

Backend Integration – RESTful webservices, API Integration, Spring Boot, Java

Cloud & DevOps – AWS, Docker, Containerization, Jenkins, Git, CI/CD

Databases – Oracle, Postgres, NoSQL DB, PL/SQL

Methodologies – Agile, Scrum, Sprint Planning, Backlog Refinement

Tools – JMeter, Sonar, Maven, Open Search

PROJECTS

eCommerce Store Enhancement with React

- Developed a new product discovery module in **React**, improving search result relevance and reducing user navigation time by **15%**.
- Implemented **TypeScript** for enhanced type safety and maintainability within the frontend codebase, catching common errors during development.
- Integrated the **React** frontend with backend **RESTful webservices** to display personalized product recommendations based on user browsing history.

Personalization Strategy Implementation (AWS)

- Built reusable **React** components for a user profile management feature, allowing for personalized content delivery.
- Collaborated with backend teams to define API contracts for personalization data, ensuring efficient data retrieval from **AWS** services.
- Containerized the personalization service using **Docker** for deployment on **AWS** Elastic Beanstalk, ensuring scalability and reliability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
