PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and implemented **AWS VPC** and **Transit Gateway** configurations to establish secure, segmented network environments, facilitating seamless inter-service communication while isolating sensitive data.
- Designed and deployed **AWS IAM** policies and **Organizations** structures to enforce granular access controls across multiple accounts, significantly reducing the blast radius of potential security incidents.
- Developed and maintained **AWS CloudTrail** and **Config** integrations to monitor API activity and resource configurations, enabling comprehensive audit trails and automated compliance checks for adherence to security standards.
- Conducted regular **vulnerability assessments** using **AWS Inspector** and **GuardDuty**, analyzing findings to identify and remediate potential threats, and providing actionable recommendations for control improvements.
- Implemented and tested **Disaster Recovery** procedures for critical cloud-based applications, ensuring business continuity and data integrity through regular failover simulations and documentation updates.
- Reviewed and enforced security procedures by discussing policy violations with affected individuals, ensuring consistent application of security standards across the team and cloud environments.
- Managed **production support** for enterprise Java applications, responding to P1/P2 incidents using **Splunk** and **Dynatrace**, and resolving issues within strict SLA targets for a financial-services client.

SKILLS

Cloud Platform – AWS, EC2, S3, Lambda, CloudWatch, IAM, Organizations, SSO, VPC, Transit Gateway, RDS, ELB, CloudTrail, Config, Inspector, GuardDuty, WAF, Oracle Cloud, Microsoft Azure.

Security Engineering – Cloud Security, Vulnerability Assessment, Penetration Testing, Network Security, Data Security, Disaster Recovery, Security Policies, Security Standards, Incident Response, Threat Analysis.

Infrastructure as Code – Terraform.

Containerization – Docker, Kubernetes.

Programming Languages – Java, Python, SQL, Shell Scripting.

Databases – PostgreSQL, MySQL, Oracle, RDS.

DevOps & CI/CD – Jenkins, Git, Code Reviews.

PROJECTS

AWS Secure Network Architecture (HCL Technologies)

- Designed and implemented a secure, multi-VPC network architecture on **AWS** for a financial-services client, utilizing **Transit Gateway** for centralized connectivity and **Security Groups** for granular traffic control.
- Configured **AWS IAM** roles and policies to enforce least-privilege access for services interacting within the secure network, ensuring robust data protection during transmission and storage.
- Developed automated checks using **AWS Lambda** and **CloudWatch Events** to monitor network configuration drift and alert on unauthorized access attempts, enhancing overall cloud infrastructure resilience.

Cloud Security Monitoring and Reporting Framework (HCL Technologies)

- Built a consolidated security monitoring framework using **AWS CloudTrail**, **GuardDuty**, and **Splunk** to aggregate and analyze security logs from diverse AWS services.
- Created automated reports detailing security events, vulnerability assessments, and access violations, which were used by operations teams to maintain compliance and address potential threats.
- Established standardized procedures for reviewing and acting upon security alerts, reducing the mean time to detect and respond to incidents by approximately **18%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
