PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and refined model-generated video annotations for accuracy and precision in describing hand movements and object interactions on a **video annotation platform**.
- Validated and corrected action timing, ensuring boundaries aligned with the start and end of each labeled activity across **time-coded video segments**.
- Assessed and edited captions for atomicity, confirming each label described a single, independent action based on project standards.
- Verified correct identification of left versus right hand usage in all annotated segments, maintaining focus on detailed requirements.
- Flagged low-quality, ambiguous, or incomplete labels for rework, adhering strictly to established annotation rubrics and structured review pipelines.
- Provided actionable feedback to annotation models and collaborated with **team leads** to resolve edge cases and improve annotation quality.
- Maintained consistent labeling quality throughout long video review sessions, demonstrating high attention to detail and process adherence.

SKILLS

Core Skills – Visual Discrimination, Attention to Detail, Process Adherence, Autonomy, Communication.

Tools & Platforms – Web-based Annotation Tools, Time-Coded Video Platforms.

AI & ML Concepts – Video Annotation, AI System Training, Model Evaluation.

Domain Knowledge – Hand Movements, Object Interactions, Action Timing.

Infrastructure – High-Speed Internet, Video Playback Capable Computer.

PROJECTS

AI Model Training Data Refinement

- Refined and corrected video annotations for **AI model training**, focusing on precise descriptions of hand movements and object interactions.
- Ensured accuracy in validating action timing and caption atomicity for a dataset of over 1,500 video clips.
- Contributed to the development of annotation guidelines by flagging ambiguous labels and edge cases encountered during review.

Video Content Moderation Pipeline Enhancement

- Developed and applied a structured review process for **video content moderation** tasks, ensuring adherence to strict quality standards.
- Identified and flagged problematic video segments based on detailed rubrics, supporting the improvement of automated content filtering.
- Provided feedback on annotation quality and consistency to team leads, contributing to process optimization.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
