PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained scalable backend services and RESTful APIs using **Python** and **FastAPI**, supporting over 15,000 daily API calls.
- Designed and implemented event-driven architectures for backend systems, integrating with messaging queues to process approximately 2,500 messages per minute.
- Collaborated with cross-functional teams to define system requirements and contribute to technical decision-making for new feature development.
- Wrote comprehensive unit and integration tests for Python backend services, achieving an average code coverage of **85%**.
- Participated in code reviews, providing constructive feedback to peers and ensuring adherence to best engineering practices.
- Managed database schemas and performed data validation using **SQL (PostgreSQL, MySQL)** for backend services, supporting over 50 tables.
- Containerized backend applications using **Docker** and deployed them to a cloud environment, streamlining the deployment process.

SKILLS

Languages – Python, Java, SQL, R, Bash

Frameworks/Libraries – FastAPI, Flask, Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle, MongoDB

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Tools/Observability – Splunk, Dynatrace, Jira, Confluence

Data Analysis/BI – Power BI, Tableau, DAX, Power Query, RStudio

PROJECTS

Python Microservices for Financial Operations

- Built a suite of Python microservices using **FastAPI** to manage transaction processing workflows for a financial services dashboard.
- Implemented RESTful APIs for data ingestion and retrieval, handling approximately 3,000 requests per hour from upstream systems.
- Integrated with **PostgreSQL** for persistent storage, ensuring data integrity and supporting audit trail requirements.

Automated Data Pipeline for Reporting

- Engineered a Python-based ETL pipeline using **pandas** and **SQLAlchemy** to extract, transform, and load data from multiple sources into a data warehouse.
- Developed scheduled Python scripts to automate report generation, reducing manual effort by an estimated **15 hours** per week.
- Deployed and monitored the pipeline on **AWS Lambda**, ensuring reliable execution and data delivery for business intelligence stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
