PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and classified high volumes of system-flagged events against strict **client guidelines and policies** in a production-support setting, making objective, consistent decisions under tight SLAs.
- Operated within a **24/7 rotational shift model** — including nights, weekends, and bank holidays — maintaining accuracy and composure during high-pressure P1/P2 incidents.
- Synthesised and analysed information from **multiple monitoring streams** (Splunk, Dynatrace, application logs) to triage issues quickly and decide the correct course of action.
- Investigated, resolved, and escalated complex cases to senior teams with clear written summaries, serving as a reliable point of contact for stakeholders during live incidents.
- Stayed continuously updated on **changing client policies and procedures**, applying revised guidelines accurately and flagging edge cases for clarification.
- Maintained meticulous **attention to detail** across audit trails, classifications, and reports, sustaining quality standards even under sustained workload and repetitive review.
- Contributed to **process-improvement initiatives** and team training, sharing best practices that improved review consistency and reduced handling time.

SKILLS

Content Review & Policy Enforcement – Guideline-based classification, objective decision-making, policy adherence, escalation handling, quality assurance.

Resilience & Wellbeing – Strong coping and stress-management skills, emotional resilience, composure under pressure, comfort with sensitive/graphic content review.

Communication & Language – Excellent written and verbal English (IELTS Academic Band 7/9), clear incident reporting, stakeholder communication.

Analytical & Critical Thinking – Synthesising multiple information streams, root-cause analysis, sound judgement, fast and accurate decision-making.

Operational Excellence – 24/7 rotational shift work, SLA management, P1/P2 incident response, audit trails, attention to detail.

Tools – Ticketing & case-management systems (Jira), Splunk, Dynatrace, Confluence, Microsoft Office, internal review tooling.

Working Style – Objectivity free of personal bias, integrity handling confidential material, adaptability to changing guidelines, team collaboration.

PROJECTS

Incident Triage & Escalation Quality Initiative

- Drove a review of incident classification accuracy against client guidelines, identifying common misclassification patterns and tightening the triage criteria the team applied.
- Authored a concise decision-reference guide that helped reviewers apply policy consistently, improving first-pass accuracy and reducing unnecessary escalations.
- Worked across shifts to ensure quality standards held overnight and at weekends, when supervisory cover was lightest.

Guidelines-Adherence & Onboarding Program

- Built and maintained an internal knowledge base capturing changing client policies so the team could act on the latest guidance without delay.
- Supported onboarding of new team members with structured walkthroughs of review tooling, escalation paths, and wellbeing resources.
- Ran short refresher sessions after major policy updates, keeping classification decisions aligned and defensible.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
