HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** microservices for backend systems, focusing on API design and integration with internal **MCP servers** to expose data for AI tooling.
- Developed **Java** and **Rust** backend services that power enterprise applications, guiding technical direction across the full stack from API to data layers.
- Owned the full lifecycle of complex features, from initial concept and design through to deployment and ongoing operational excellence for internal tools.
- Mentored junior engineers on best practices for **frontend architecture**, **API design**, and comprehensive testing strategies across the stack.
- Identified and mitigated technical risks and dependencies early in project lifecycles, ensuring smooth delivery and minimizing potential roadblocks.
- Contributed to cross-organization initiatives, expanding the impact of the team's work beyond immediate projects and fostering collaboration.
- Containerized backend services using **Docker** and deployed them to a **Kubernetes** cluster (EKS), managing configuration and resource allocation for reliable operation.

SKILLS

Backend Development – Python, Java, Rust, Spring Boot, Flask, FastAPI, REST APIs, Microservices

Frontend Development – React, Vue, TypeScript, Server-Rendered Templates

Data & AI – MCP Protocol, AI Systems Interoperability, RAG Architectures

Databases – SQL, Relational Databases, Non-Relational Databases

DevOps & Cloud – Docker, Kubernetes, AWS, CI/CD, Observability, Monitoring, SRE

PROJECTS

Internal AI Service Interoperability Platform

- Developed a **Python** backend service that integrates with internal **MCP servers**, exposing structured data for consumption by various AI systems.
- Designed and implemented scalable **REST APIs** using **FastAPI** to facilitate seamless data exchange and system interoperability, handling diverse data formats.
- Containerized the service using **Docker** and managed deployments on a **Kubernetes** cluster, ensuring high availability and efficient resource utilization.

Employee Productivity Tooling Suite

- Contributed to the development of a full-stack internal application suite, focusing on enhancing employee productivity and collaboration.
- Built **React** frontend components and integrated them with **Java Spring Boot** backend services, ensuring a responsive and intuitive user experience.
- Collaborated with product managers to define roadmaps and translate user requirements into technical specifications for new features.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
